Instruction Manual

How to Embed an HSTalks Lecture

To embed a lecture, including an interview or case study in your application of choice (PowerPoint, Word, Moodle, Blackboard, etc.) click on the 'Embed in Course/Own Notes' button when playing the video.

The screenshot displays the HSTalks website interface. At the top, there is a navigation bar with the HSTalks logo, a 'Subjects' menu, a search bar, and a 'KEEP ME UPDATED' button. Below the navigation bar, the main content area features a video player for a lecture titled 'Critical Competencies for Success in Remote Work' by Prof. Roberta Sawatzky. The video player includes a sidebar with a 'Printable Handouts' section and a 'Navigable Slide Index'. The 'Printable Handouts' section contains a PDF icon and a list of 13 topics. The 'Navigable Slide Index' section contains a list of 13 topics. A circular callout highlights the 'EMBED IN COURSE/OWN NOTES' button located at the bottom of the sidebar. Below the video player, there is a section titled 'Critical competencies for success in remote work' with a profile picture of Prof. Roberta Sawatzky and a description of her affiliation. The bottom of the page features a 'Review' button and a 'Share' button.

EMBED IN COURSE/OWN NOTES

Review Share

The pop-up below is presented. You now have two options:

- Embed as a link
- Embed as video

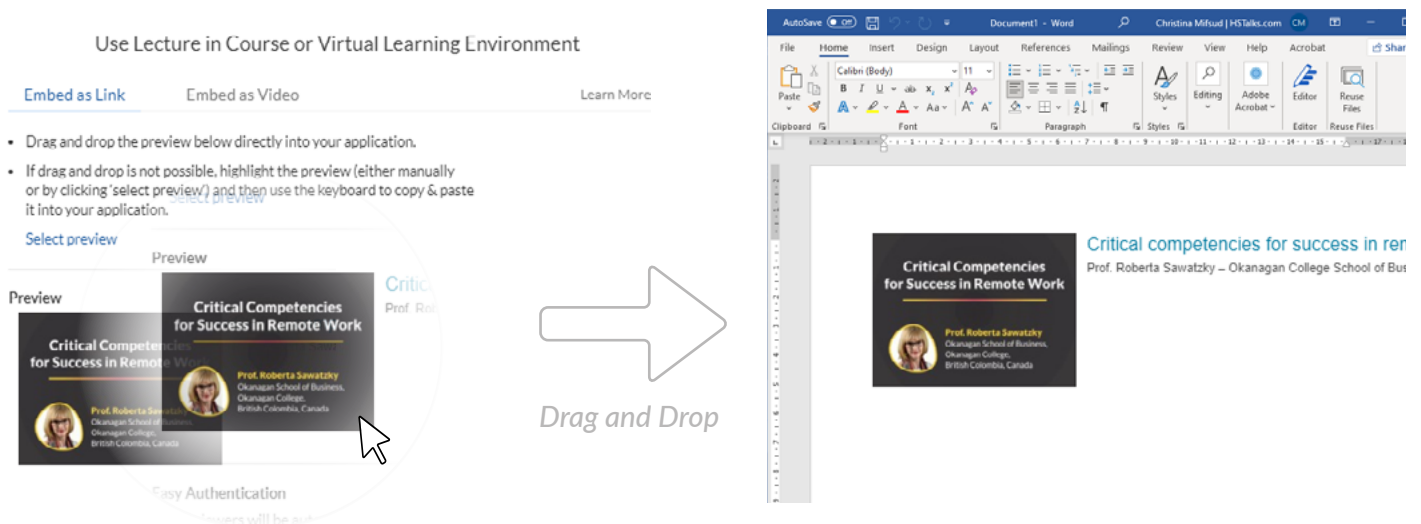

EMBED AS LINK

Use this option to create a thumbnail that serves as a link to the video on the HSTalks website.

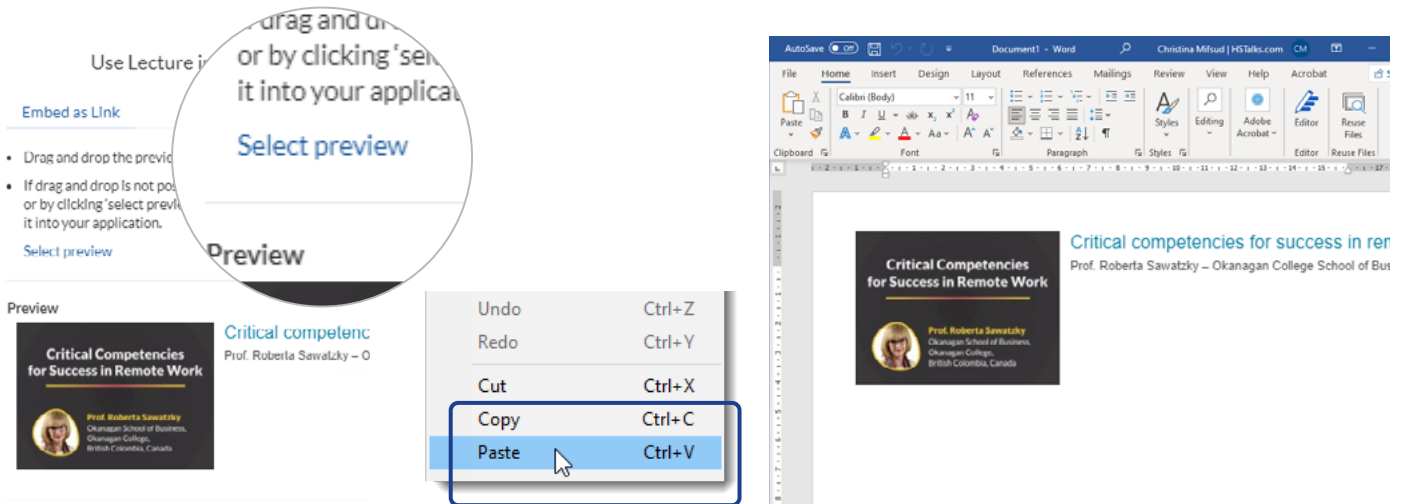

There are two ways to embed a lecture as a link:

- A. Drag and Drop:** – ‘dragging and dropping’ the thumbnail from the ‘preview’ is the simpler way.
1. Hover with the mouse over the thumbnail.
 2. Press and hold down the left button of the mouse.
 3. Move the mouse cursor to the location where you wish to ‘drop’ the lecture (e.g. in PowerPoint, Email, Word, Moodle or other VLE etc.).
 4. Release the button to embed the lecture.

B. Copy and Paste: another way to embed a lecture as a link is to copy the thumbnail from the preview and paste it into your application of choice.

1. Manually select the preview or click the 'select preview' button on the embed page.
2. Press Ctrl+C to copy the preview to your clipboard.
3. Open your application of choice and click the place where you wish to embed the lecture.
4. Press Ctrl+V to paste (embed) the lecture

ADVANCED OPTIONS

There are several advanced options when embedding the lecture as a link:

- 1 **Easy Authentication:** When enabled, viewers will be automatically recognized as member of the institution. *Note: to use this option you need to be logged to a personal account.*
- 2 **Thumbnail Size:** Select thumbnail size or select 'none' to have only text.
- 3 **Lecture Information:** Select which information to include or untick all boxes to have only a thumbnail.
- 4 **Define a segment of the lecture:**

This can be done in two ways:

- A Enter start and end times to create a defined time segment.
- B Enter start and end slides to create a segment defined by the inclusion of slides.

The segment will be created automatically based on the inserted instructions. The preview will still show a thumbnail of the cover slide.

Use Lecture in Course or Virtual Learning Environment

[Embed as Link](#) [Embed as Video](#) [Learn More](#)

- Drag and drop the preview below directly into your application.
- If drag and drop is not possible, highlight the preview (either manually or by clicking 'select preview') and then use the keyboard to copy & paste it into your application.

1 Easy Authentication
☒ All viewers will be automatically authenticated as members of your institution.

2 Thumbnail Size
200x150 100x75 **none**

3 Lecture Information
☒ Title ☒ Speaker(s) ☒ Affiliation(s)

4 Use Segment of the Lecture (optional):
Start
End

A Use Segment of the Lecture (optional):

Start

End

B Use Segment of the Lecture (optional):

Start

End

EMBED AS VIDEO

To embed direct access to the video within the application of your choice, without a link to the HSTalks website, choose this option.

Use Lecture in Course or Virtual Learning Environment

Embed as Link **Embed as Video** Learn More

Copy and paste the HTML code below into your web page or application.

```
<iframe width="480" height="360" src="https://hstalks.com/t/4469/iframe/?business&start=%405&end=%4015" frameborder="0" scrolling="no">
```

Preview

Easy Authentication

☒ All viewers will be automatically authenticated as members of your institution.

Video Size

480 x 360 pixels

☐ Autoplay

Use Segment of the Lecture (optional):

Start 5

End 14

1. Click on the box with the HTML code. It will be selected automatically.
2. Press Ctrl+C to copy the HTML code to your clipboard.
3. Open your application of choice and insert the HTML code in the appropriate location. This step varies greatly among applications and their different versions and editions; please review the technical help page of the application into which you wish to embed the video.

Below are links to technical help pages of common applications:

Moodle:

<https://docs.moodle.org/310/en/Video>

Blackboard:

https://help.blackboard.com/Learn/Instructor/Course_Content/Create_Content/Create_Course_Materials/Add_Files_Images_Audio_and_Video

Microsoft PowerPoint:

Only supports embedding videos from YouTube, and does not permit embedding of videos from other sources.

ADVANCED OPTIONS

There are several advanced options when embedding the lecture as video:

Use Lecture in Course or Virtual Learning Environment

Embed as Link **Embed as Video** Learn More

Copy and paste the HTML code below into your web page or application.

```
<iframe width="480" height="360" src="https://hstalks.com/t/4469/iframe/?business&amp;start=%405&amp;end=%4015" frameborder="0" scrolling="no">

1 Easy Authentication
☒ All viewers will be automatically authenticated as members of your institution.

2 Video Size
 480 x 360 pixels

3 ☐ Autoplay

4 Use Segment of the Lecture (optional):
 Start 5
 End 14

1 Easy Authentication: When enabled, viewers will be automatically recognized as member of the institution. *Note: to use this option you need to be logged to a personal account.*

2 Video Size: It is possible to adjust the size of the embedded video manually.

(4:3 aspect ratio will be kept automatically), although it is recommended to keep the default size (480x360).

3 Autoplay: It is possible to set the video to be played automatically. Certain browsers/devices will disable this option.

4 Define a segment of the lecture: This can be done in two ways:

A Enter start and end times to create a defined time segment.

B Enter start and end slides to create a segment defined by the inclusion of slides.

The segment will be created automatically based on the inserted instructions.

A Use Segment of the Lecture (optional):

Start 2:34

End 13:45

B Use Segment of the Lecture (optional):

Start 5

End 14
