

1,000 recommendations from researchers in the biomedical and life sciences

Excellent resource!!

Dr Alastair Morrison

GlaxoSmithKline

This is an excellent resource and I would value continued access.

Dr Adeeba Ahmed

University of Birmingham

*As a first impression, this is the most fabulous collection of first rate
audiovisual trainings in biomedical sciences that I have ever seen.*

Altogether, the content, the layout and the technology are superb.

Dr Armel Stockis

UCB Pharma

*This is a valuable resource that students and teachers will find very
helpful.*

Dr Ali Al-Fazari

United Arab Emirates University

This is an amazing resource to have available.

Dr Bob Jordan

Johnson & Johnson

This is an excellent resource and a valuable collection of material that can be used with our trainees at both undergraduate and postgraduate level.

Prof Adrian Newland

Queen Mary University of London

An enabling resource that provides access to content from Scientific Experts and available to listen and learn from in a flexible manner, when you want to. It definitely provides access to updating your knowledge even if you don't have time to attend some conferences you would like to go to.

Dr Rajesh Mishra

Merck & Co., Inc.

I will certainly enjoy the talks and presentations. Useful for myself and for undergrad and postgrad students.

Prof Adriano Rossi

University of Edinburgh

Very useful!

Dr Ana-Maria Oros-Peusguens

Forschungszentrum Jülich

Fantastic resource.

Dr Annette MacLeod

University of Glasgow

A priceless resource.

Dr Aidan McKeever

University of Warwick

Unique access to the best of presentations.

Dr Alex Morris

Imperial College London

An excellent series of talks. I strongly recommend it.

Dr Arvind Patel

University of Glasgow

*I think it is a brilliant idea. Easy access clear up-to-date material. I wish
I would be able to save some talks for my teaching.*

Dr Alexander Ruban

Queen Mary University of London

This resource looks very promising, and I would utilise it regularly.

Dr Aileen Sherry

University of Glasgow

I am very impressed with the breadth scope and quality of these outstanding lectures. They will be a huge asset to me, my students, and to many others in the University. I strongly recommend that the subscription is maintained.

Dr Alistair Williams

University of Edinburgh

As Chairman, having this resource is very important to the Dept....for residents, students, faculty and allied health providers. Thank you for making this available.

Prof Allan Abramson

Yeshiva University

It is saving so much time (and money) to attend such conferences online.

Dr Jean-Pierre Abastado

St Andrews France

It is an excellent resource for both staff and students. To my surprise I found a very informative technical talk on 3D image reconstruction which I enjoyed watching for 48 min!

Dr Abbas Cheddad

Umea University

Very useful resource.

Prof Alan Beck

Purdue University

Up-to-date, informative, and comprehensive lectures that cover specialized areas and are only a mouse click away; definitely the future of e-learning!

Dr Hazem Abuhusain

University of New South Wales

Thank you! Count me in. Great resource.

Dr Amy Cheng

Saint Louis University

Yes, i strongly support the continued access to this phenomenal collection. This type of resource represents the method of information sharing for teaching and research in the future.

Dr Andrew Liu

University of Memphis

The talks provide a very useful overview of diverse, but interlinked areas of biomedical research.

Dr Amardeep Dhillon

University of Melbourne

Very useful.

Dr Adibah Yahya

University of Technology Malaysia

I have looked to some of the presentations which directly interest me (Obesity, Viruses and Drug metabolizing enzymes). Very interesting stuff and very well presented for the students. I have also recommended the website to my PhD students, with the reque

Dr Adrian Covaci

University of Antwerp

These lectures are extremely useful in understanding some of the novel advances in biomedical science over the last few decades.

Dr Andrew Duxbury

University of Alabama - Birmingham

Looked at a few of the talks and they seem professional and helpful.

Prof Amos Frisch

Tel Aviv University

It is a fantastic resource which I have used regularly both for my teaching and research activities and it is particularly appreciated by postgraduate students. I also know many undergraduates who have used it and indeed I have mentioned it during some of

Dr Afshan Malik

King's College London

Really interesting collection of talks.

Dr Erika Agius

University of Sydney

This is a great resource and I would like to ensure that we continue to have access...A must have.

Dr Andrew Harkin

Trinity College Dublin

I work on tumour angiogenesis and its relevance clinically, and translational research in cancer. I found the lectures very informative, well illustrated and by the world-leaders. I can recommend them to my students for orientation and good introductions.

Prof Adrian Harris

University of Oxford

I have recently viewed several of these lectures. They would be a valuable resource and I would incorporate (use as recommended viewing) several of these lectures into my graduate teaching (formal courses and for viewing by students in my lab).

Dr Aimee Ryan

McGill University

These talks are really useful for new students in the lab and help to understand basics in biology field. I have really enjoyed listening these talks and they have helped me to broaden my knowledge in science.

I hope we`ll have access to this collection.

Dr Aino Uotila

University of Geneva

These talks are not only great teaching tools for students but also great reviews for the faculty.

Prof Albert Azzaro

University of South Florida

It is very helpful site.

Dr Aida Aziz

College of Health Sciences

I have tried out some of the talks and find them excellent.

Dr Antony Rest

University of Southampton

My research and teaching are in healthcare communication, and these resources will be excellent for my own work and for my students.

Dr Amanda Young

University of Memphis

This is fantastic! keep up the great work.

Dr Akaysha Tang

University of New Mexico - Albuquerque

WOW! I am so impressed with the Biomedical & Life Sciences Collection. I think it will not only be useful to me as a biomedical researcher but invaluable to postgraduate students embarking on new research fields. I would certainly like to have continued a

Prof Ann Louw

Stellenbosch University

I find it extremely important to have a quick access to the database, like this, that reflects newest developments in the field of bio-science!

Dr Alar Veraksits

University of Tartu

Great idea.

Dr Alayne Ronnenberg

University of Massachusetts - Amherst

A good tool for teachnig.

Dr Alba Rangel

Pontificia Universidad Javeriana

Thanks, I think it is of great interest is the ability to access data from these studies.

Dr Alberto Prestininzi

University of Roma - La Sapienza

Great resource for me and my residents.

Dr Alan Legasto

Yeshiva University

Brilliant presentations. I LOVE this website!

Dr Aleks Brandl

University of Pretoria

It's a wonderful source of knowledge.

I would like to have a permanent access

Thank you.

Dr Aleksandr Rabinovich

Ferring Pharmaceuticals

The resource is very usefull for me and for medical students

Dr Aviva Levitas

Ben Gurion University

Excellent resource for both quickly getting up to speed and furthering understanding on current scientific thinking in apoptosis. Extremely convenient format.

Dr Alex MacDonald

GlaxoSmithKline

I find these talks very enlightening and useful for both myself and for my students.

Dr Alexander Yan

University of Alberta

This is Great.

Prof Alojz Bomba

Pavol Jozef Safarik University in Kosice

Most useful for our neuroscience PhD students!

Dr Alfons Ruíz

Institut Recerca Hospital Vall Hebron

The Henry Stewart talks are an indispensable resource to the students of ASU who are for the most part enrolled in transdisciplinary programs that require constant reading and research cutting-edge biological research and knowledge. The HS talks provides

Prof Ana Hurtado

Arizona State University

Very well composed talks.

Prof Anné Møller-larsen

Aarhus University

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Great project.

Prof Amos Ar

Tel Aviv University

Very useful and easy way of learning new stuff and refreshing the old one.

Dr Ladislav Andera

Academy of Sciences of the Czech Republic

Useful!

Prof Anders Grubb

Lund University

An impressive collection of educational lectures.

Dr Andrea Isidori

University of Roma - La Sapienza

I really like these lectures and encourage my students to hear them out.

Prof Andrea Leblanc

McGill University

This is a very valuable collection of insight lectures & talks. Should be highly recommended to every student with interest in life science. / Many thanks for pointing me to this wonderful resource of great

lectures and talks. I will recommend your site

Dr Andreas Lengeling

University of Edinburgh

A superb collection and technologically excellent.

Dr Andrew Remppis

University of Heidelberg

Some of these on population genetics would be very useful for a number of my classes.

Prof David Merriwether

Binghamton University

Good initiative.

Prof Anette Bygum

University of Southern Denmark

Very informative talk.

Dr Ros Omar

University of Malaya

These are excellent resources both for faculty and students to supplement coursework.

Prof Ann VanSant

Temple University

Very useful source!

Dr Anna Bogdanova

University of Zurich

This was very informative for the work being done to eradicate the guinea worm and the cultural considerations for a successful program.

Mrs Anna-Rhesa Kallam

GlaxoSmithKline

I find it very useful, particularly exciting topics, nice and practical overview, useful study material. By coincidence I'm specifically interested in innate immunity, announced as a next topic.

Prof Anna Sediva

Charles University - Prague

I am delighted that Yale has elected to continue its access to the Henry Stewart talks. I have found them to be a wonderful resource for me and my students that allows us to keep abreast of material that is not in my immediate field, but which is relevant

Dr Anne Williamson

Yale University

I really like this...I don't know what to call it...service? site? talk-smorgasbord!!!! It has helped me a lot to quickly get insights into different areas!

Dr Annika Sjoström

Umeå University

Excellent talk by Don Clewell.

Prof Antone Medeiros

Brown University

I started viewing the videos very recently and I found it very helpful in my line of business and it gives more information on all aspects of the industry (i.e. pharmaceuticals). It helps me to expand my understanding of all aspects of the drug delivery.

Dr Amer Omar

GlaxoSmithKline

Good quality and clarity in the presentation. It was an informative update, covering both the history of the field and the current challenges.

Dr Anne Queenan

Johnson & Johnson

These lectures are excellent -- I viewed portions of several. I have recommended them to my students.

Prof Andrew Rice

Baylor College of Medicine

This will be very helpful.

Dr Raul Artal

Saint Louis University

The collection is valuable to both me and my students.

Prof Grossman

Stanford University

I would like continued access as it is definitely a great resource for anyone who is involved in educational process.

Prof Artem Rogovskyy

University of Georgia

This is great! I like it.

Dr Aruna Weerasooriya

University of Mississippi - Oxford

I listened to an excellent lecture this morning on "Clinical Pharmacology of Pain" by a thought leader, Eija Kalso. The lecture is very germane to the pain work we at Lilly are doing. I am recommending the lecture to others who are also developing new

Dr Amy Chappell

Eli Lilly & Company Ltd

An extraordinary resource.

Dr Arthur Roberts

University of Edinburgh

Really a fantastic experience to listen to the talks of eminent scientists.

Dr Abhinav Sinha

University of Glasgow

Much more interesting than a normal book collection, specially in this interdisciplinary and audio-visual age. Long time needed for those working at the borderline of biomedicine.

Prof Maria de Cabanyes

University of Barcelona

It is a great collection, which can help a lot to me in my scientific work.

Prof Andrea Szegedi

University of Debrecen

This looks like an excellent seminar series that will be very useful to me as well as my graduate students.

Prof Alvin Terry

Medical College of Georgia

An excellent pedagogical device.

Prof Atwood Gaines

Case Western Reserve University

Most useful resource, I couldn't recommend it more.

Dr Augustin Amour

GlaxoSmithKline

*It's an innovative tool for being updated in different research areas -
interesting and useful issues for my work at the university.*

Dr Amanda Varela

Pontificia Universidad Javeriana

*The Biomedical & Life Sciences Collection is an excellent collection of
talks, which will definitely help people in the field to improve their
knowledge and to apply them in our research work.*

Dr Avinesh Pavoov

Biocon

This is a wonderful teaching and learning tool.

Prof Avishay Stark

Tel Aviv University

Invaluable.

Dr Alun Wang

Tulane University

Thanks very much for this valuable facility.

Prof Ismail Aydin

Ataturk University

Excellent talks, very informative for professionals, but the level is still suitable for students.

Dr Bettina Platt

University of Aberdeen

Superb material for background info and teaching in my area of research.

Dr Bettina Schock

Queen's University - Belfast

This is a wonderful work and an opportunity for us to keep updated. My thanks to the people who are doing this great work.

Dr Baba Pendse

Lund University

I listened to Obesity talks, and am very impressed! They are fantastic, and will be very useful to myself and my students and colleagues.

Dr Barbara Olendzki

University of Massachusetts Medical School

The talks are great and provide excellent extension to my lectures...I think this resource is excellent und would be very useful for my lecturese. Therefore I would like to ask for a continued access.

Dr Barbara Ostanek

University of Ljubljana- Faculty of Pharmacy

I look forward to using this valuable resource. It will be very valuable for my teaching and work.

Dr Barry Posner

McGill University

I was blown away by the simple access to authoritative talks on topics relevant to my research.

Prof Christopher Bayne

Oregon State University

I have sampled the lectures and find the content very informative; a must for students (and lecturers).

Dr Billy Boonzaier

Stellenbosch University

In 5 minutes I found many talks that will be useful to my research efforts.

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Prof Brian Masek

University of Texas at Austin

This collection is one of the most useful and comprehensive sites I have visited. It is a great resource, with easy access, exhibits depth and breath of scientific knowledge. One of the landmark catalogues of scientific knowledge for current and future g

Dr Biykem Bozkurt

Baylor College of Medicine

I am particularly interested in the section on autoimmunity and look forward to having the opportunity to hear the talks--looks fascinating!

Dr Rebecca Sentman

Mercer University

This is a superb collection!

Dr Tiffany Beckman

University of Minnesota - Twin Cities

*I have seen a shortly your presentations but really they are very use full.
I would like to have acces to your The Biomedical & Life Sciences
Collection...*

Dr Beqe Hulaj

Agriculture and Veterinary Faculty

Thank you for this unique opportunity!

Dr Bela Gyurik

University of Manitoba

This is an excellent resource for new information. I'm enthusiastic about its wide range of information. My research and intellectual curiosity will be greatly enriched by this carefully crafted resource.

Prof Ursula Bellugi

The Salk Institute

Useful information of various themes relevant for my research.

Dr Betty Kalikstad

University of Oslo

Very useful basic and advanced updates.

Dr Batya Gorin

Yeshiva University

This is a wonderful resource. I am certain it will be widely used by my group of PhD students, post docs and staff.

Prof Bill Deakin

University of Manchester

Excellent talks.

Prof Ofer Binah

Technion

A very useful resource, indeed.

Dr Barbara Novakovic

Institute of Oncology

This link is very important for researchers as access to updates and new articles will be available for us.

Dr Basile Keugoung

Institute of Tropical Medicine Antwerp

These are excellent teaching aids and a way to keep current in the field.

Prof Blaine Beemer

University of Calgary

The collection is useful to me in two different ways. Firstly it provides useful information and graphics for the purposes of teaching in one's area of expertise. Secondly, it is a means whereby you can quickly assimilate the essentials in an area of biol

Prof Brian Merry

University of Liverpool

Excellent research updates for Extension education programming.

Dr Linda Bobroff

University of Florida

This is a great addition to the way students can learn! It also is a way I can stay in tune with happenings outside my own field.

Prof Celia Bonaventura

Duke University

Last year I had access to the website (hstalks.com), which I used frequently to view genetics lectures and enhance my basic science background. I found the lectures incredibly useful as both a curriculum and to provide access to certain subject areas tha

Dr Bret Bostwick

Baylor College of Medicine

Excellent content.

Prof Ivor Bowen

Cardiff University

The library selction is quite relevant to the Lilly portfolio. This learning venue is a welcomed alternative to the usual journal/book material and fills a void left with our decreasing ability to attend conferences where these presentations are tycpially

Dr Mark Boye

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Eli Lilly & Company Ltd

It is obviously a valuable resource to guide and assist busy academicians and students on topical issues of the day in the fast-changing life sciences research arena.

Prof Abraham Louw

University of Pretoria

The topics covered are very interesting. I recommend and use it, to get an overview as well as to go into details and search for explanations of specialities.

Dr Thomas Breitenbach

Aarhus University

I think that this is a very useful resource and I have recommended that students and staff should make use of this as a means of complementing the material which is available in more traditional format.

Dr James Brennan

Institute of Technology Sligo

This is an amazing resource!

Prof Brian Goff

Purdue University

Very valuable to me for lecture preparation; very useful to have access to ppt slides; useful as resource to give to students.

Prof Brian Sutton

King's College London

Many thanks for this there are very interesting talks...Very nice collection, thanks.

Dr Bruno Gran

University of Nottingham

This is great.

Dr Berhane Seyoum

Wayne State University

I find the HTS Biomedical and Life Sciences collection as real gold mine!

Dr Bojan Shutinoski

University of Ottawa

Thank you very much for your information. That's very useful for me.

Dr H.T. Bui

Riken

Will be helpful for the DNP program, particularly our genomics/epidemiology course.

Prof Susan Bulfin

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Mercer University

Outstanding!

Prof Burkhard Toenshoff

University of Heidelberg

Very useful.

Dr Carys Watts

University of Newcastle Upon Tyne

Excellent resource.

Dr Craig Daly

University of Glasgow

Had a look at one or two areas very impressed.

Dr Johnson

Queen's University - Belfast

I find this resource a unique opportunity to be educated from experts in diverse scientific fields from different universities. For instance, it is very useful for those researchers who cannot participate to conferences around the world. Moreover, to listen

Dr Camilla Reali

GlaxoSmithKline

These lectures are very useful for many in the life sciences.

Prof John Cannon

University of Missouri - Columbia

I am very impressed with this website and please count me in as far as one of its strongest users and one of the libraries strongest supporters.

Dr Carl Edwards

University of Colorado - Denver

This is a very useful resource to hear great talks in field that are related to mine when there is no time to go to conferences.

Dr Piero Carninci

Riken

The talks are very well structured and very relevant, particularly in terms of evidence based clinical practice.

Dr Cathy Haigh

Monash University

We have begun to explore using the Henry Stewart Talks particularly in developing new courses for postgraduate students. I believe they will be an excellent resource.

Dr Chris Cobbett

University of Melbourne

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Nicely done. Great resource for lecturers and students. I looked at a couple of the presentations in The Biomedical & Life Sciences Collection and they are wonderful.

Dr Carol Condit

University of Nevada - Reno

Keep our access, please!! These are immensely useful.

Dr Carol Gell

Johnson & Johnson

*Thanks very much for the membership in this very useful resource.
Thanks very much to all who have contributed to the talks.*

Dr Chandrashekara Mallappa

University of Massachusetts Medical School

Excellent resource. UCSF students are primarily professional students (medical, pharmacy, dental and nursing) and graduate students. I think that the series would be most useful for the undergraduate schools where we get our applicants since we expect th

Prof Charles Craik

University of California - San Francisco

Thank you for making a new way of hearing good quality seminars.

Dr Charlotte Arpin

St Andrews France

An astounding selection of useful material.

Dr Charlotte Chamberlain

University of Bristol

Great resource for teaching.

Dr Tony Chetty

McMaster University

I have heard some of these talks at NCBS, Bangalore, India website. They are useful and very informative both for me and my students of graduate and undergraduate level.

Dr Manmohan Chhibber

Indian Institute of Science

Thank you very much for the info.

Dr Chhorn Lim

Auburn University

This appears to be a valuable resource.

Dr Gwen Childs

University of Arkansas for Medical Sciences

This resource is quite helpful – thank you for introducing me to it!

Dr Jordan Chill

Bar Ilan University

Brilliant. Not only knowledge I can learn, but also the presentation skill I can acquire from these talks.

Prof Chi-yu Chen

National Chung Hsing University

This is a very useful educational tool and should be retained at UWI.

Dr Christopher Oura

University of the West Indies

Talks are very helpful to understand concepts, techniques and research and clinical applications. They are very relevant to my work.

Dr Christine Loo

Queensland Institute of Medical Research Berghofer

I have forwarded to everybody in the institution, I am currently watching rheumatoid arthritis related talk, and I found it very good. Thanks.

Dr Christine Nardini

Shanghai Information Center for Life Sciences

Liked the ability to print out slides, pause and take notes.

Ms Chris Jachec

Merck & Co., Inc.

Terrific basic Science talks, great faculty, on demand format is quite useful for busy people to watch when time is available, flexible on-demand curriculum

Dr Christoph Wald

Tufts University

Please provide me continued access.

Dr Christopher Dennis

Yeshiva University

*Extensive, very clear and nicely illustrated presentation of the field.
Congratulations.*

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

The Neurosciences series are excellent and would be a great tool for students and residents.

Dr Chaouki Khoury

University of Oklahoma Health Sciences Center

I am very supportive of the library subscribing to this resource. The video tutorials and lectures are of excellent quality and would be a wonderful resource to use in our teaching. This will give our students direct access to lectures by the leading expe

Dr Claudia Krebs

University of British Columbia

Excellent.

Prof Claus Hovendal

University of Southern Denmark

I have used one of the talks in my Biol 7051/8051 graduate level class. The MS and PhD students enrolled found lectures by Nobel Laureates and other leading scientists to be stimulating adjuncts to the usual lecture series.

Prof Charles Lessman

University of Memphis

Yes, I would indeed agree and would recommend it to my colleagues and co-students. I personally think it is an impressive and invaluable resource of seminar talks and presentations, very relevant to our field of work. A 'one-stop-shop' if you are looking

Dr Liao

University of Essex

This is an excellent resource, which I would like to continue to be able to use in my studies and for teaching.

Dr Caroline Millins

University of Saskatchewan

I have looked few of the Life Science collection seminars and indeed these are very useful with respect to cell signalling, drug discovery and cell survival and cancer research. Hence I request you to allow me to use indefenently. Thanks for your help.

Dr Chandra Malladi

University of Sydney

These are very useful background talks in many areas related to research and teaching.

Dr Catherine McGowan

University of Liverpool

I think this is an excellent and up-to-date collection of biomedical and life science presentations

Dr Christopher Molloy

Rutgers State University - New Brunswick

The collection will be greatly useful for my projects to write a couple of pathology books for medical students and pathology residents.

Prof Carlos Navarro

Columbia University

It is really useful to have a quick access to such a wide range of topics.

Prof Codruta Nicola

University of Medicine and Pharmacy Cluj-Napoca

This is an impressive list of specialist lectures. There are some excellent expert talks given on aspects of biomedical science that are directly relevant to the microbiology and immunology courses delivered to our BSc, BSc(Biomedical Science), BSc(Biotec

Dr Connor Thomas

University of Adelaide

The Biomedical & Life Sciences Collection is a fundamental resource for our research and teaching.

Dr Coralia Rocco

Universidad de Concepcion

Excellent advanced teaching material for all levels. Not sure of the cost but this seems to be a valuable resource and should be made available. Needs special marketing on the campus to get best value....

Prof Andrew Cossins

University of Liverpool

Great - there are many excellent speakers - by excellent I mean able to excite students about their area - who are Nobel Prize winners etc.

Prof Charles Oxnard

University of Western Australia

I believe this may be a valuable resource for health services researches in general.

Dr Cynthia Iglesias

University of York

These talks are excellent resources to provide medical students a greater understanding of the basic science behind medicine, as well as the state of biomedical research and its impact on patient care.

Prof Lynn Crespo

University of Central Florida

The collection represents a great source of scientific knowledge promoted by great scientists, a practical method to learn to present your own research.

Dr Cristina Clement

Yeshiva University

This is truly a wonderful resource!

Dr Cristina Estrada

Vanderbilt University

I found these series to be extremely helpful to both undergraduate and postgraduate students as well as an invaluable resource for teaching.

Dr Cristina Tufarelli

University of Nottingham

These talks are great for students and the diversity of talks and topics is fantastic.

Prof Christine Chow

Wayne State University

These are excellent talks by leaders in the field and will be a really valuable resource for students and professional.

Prof Charles Streuli

University of Manchester

Very convenient because of time constraints on practicing physicians and educators.

Dr Clement Tagoe

Yeshiva University

I found the collections useful & timely.

Dr Charles Tong

Johnson & Johnson

A great resource!

Dr James Cummings

East Carolina University

Excellent talks. I have found it an invaluable asset in my transition from academia to industry.

Dr Curtis Rambaran

GlaxoSmithKline

These talks are useful.

Dr Carmen Varela

Spanish National Cancer Center (CNIO)

The ability to listen to scientists of international renown at liberty is invaluable.

Dr Colin Weatherill

Flinders University

Thanks, this is a very valuable service that you are providing.

Dr Charles Williams

University of Memphis

Really useful for my lectures.

Dr Delphine Boche

University of Southampton

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

This rich archive of oral presentations is valuable for researchers like myself who would like to keep current on topics ancillary to my main research focus as they are a quick and enjoyable way to dip one's toe into new/different areas. They are also gr

Dr Dale Esliger

University of Exeter

These talks are extremely useful and informative. I have now used them on several occasions with medical students and MSc students in order to give them a better understanding of various topics.

Dr Dan Hampshire

University of Sheffield

I'm very impressed by the variety of topics. I would like to spend an afternoon with it like a mouse with a nice piece of cheese. It is very interesting to see what others think about the same topics that I am interested in.

Prof David Janero

Northeastern University

This is an outstanding resource that will be invaluable to both senior and junior scientists. What's especially good is that varied perspectives from different scientists are included, and that the information given is so up-to-date.

Prof Denise Sheer

Queen Mary University of London

Excellent series. It is an additional resource for students following lecture content. When learning totally new complex material repetition is important for full understanding. This series provides that repetition.

Dr Diane Adler

Temple University

I appreciate that the website is well made and very simple to use.

Dr Damien Simon

University of Antwerp

I use these talks in the classroom, as homework assignments to enhance my classroom instruction and for my own updates on scientific topics that complement my research activity and knowledge base for teaching graduate and medical students...I have gotten

Dr Dana Mordue

New York Medical College

I'm very interested.

Prof Daniel Federman

Yale University

Very interesting and useful.

Dr Danielle Burger

University of Geneva

My 1st talk to which I've listened (Oxidative stress in Aging) - very clear, measured, unhurried and well explained; at a good level which was scientific and easy to follow.

Dr Danuta Urbaska

University of Liverpool

The collection appears to be a really excellent resource for a wide variety of disciplines. I navigated towards a personal area of interest and found some excellent potcasts from leading academics in the area. I will certainly recommend the resource.

Dr David Gardner

University of Nottingham

This is a wonderful service of great value to the University's most fundamental goal: the dissemination of knowledge and understanding. Yes, please continue my access; thank you.

Dr David Katz

Yale University

The Henry Stewart Talks are a valuable resource for academics, graduate students and practitioners alike. The range and format is readily accessible and the material is up-to-date.

Prof David Pyne

Australian National University

Very well structured presentation.

Dr David Scales

Glycoform Ltd

This is a valuable resource. I think this collection is an extraordinarily valuable resource for the UOW. The breadth and scope of the topics are remarkable enough, but to think it is continually updated and expanded is amazing!

Dr David Kardachi

University of Wollongong

I have only had a limited look at this, but it seems exceptional!

Prof David Baines

University of Sydney

Great tool!

Dr Daniela Barilla

University of York

Superb!

Prof David Bear

University of New Mexico - Albuquerque

A nice way to get to see talks when schedule conflicts prevent attendance.

Dr Darren Begley

University of Washington - Seattle

This is an important source of materials for research in immunology.

Prof David Lewis

Stanford University

Very useful teach tool and up to date in their content.

Dr Fook Chew

National University of Singapore

This is a valuable resource for my work.

Prof David Clain

Yeshiva University

Great discussions of medical ethics from a British viewpoint.

Dr Darrell Davidson

Indiana University

Outstanding service.

Prof David Diamond

University of South Florida

Brings a real external focus and insights from clinical practice into our every day work.

Dr Debra Barker

Novartis

These talks are very attractive and interactive, giving new environment of e-learning.

Dr Dedy Kusuma

Gadjah Mada University

I think this compendium could be very useful for teaching in senior undergraduate years and for graduate students. The breadth and quality of the talks is quite exceptional.

Prof Roger Deeley

Queen's University

This is a fantastic resource for both the student and academic.

Prof Christopher De Jonge

University of Minnesota - Twin Cities

This is a very informative, current, and valuable resource that should be accessed frequently by students and faculty alike.

Dr Terry Delovitch

University of Western Ontario

Great series of talks! Up to date and given by leaders in their field.

Prof Denis Deblois

University of Montreal

The Henry Stewart Talks is indeed a unique idea. The talks will be of interest to students, postdoctoral fellows and faculty members. It is a certainly a resource that should be available from University libraries.

Prof Dennis Vance

University of Alberta

I would be happy to have access to this online seminar series.

Dr William Deutsch

Auburn University

These are very useful state of the art talks that are of benefit to students and researchers. I would welcome continued access.

Dr Damian Purcell

University of Melbourne

These lectures are extremely useful for students and faculty members. I think that these lectures provide an excellent complementary tool for training the MSc and PhD students as well as for providing refreshing information to many scientists in neighbori

Prof Daniel Khananshvili

Tel Aviv University

Excellent overview of AD.

Dr David Hough

Johnson & Johnson

With increasing specialization and at the same time increasing inter-disciplinary research, it is important to have access to these lectures to foster high quality cross-discipline dialogue.

Dr Diana Hartel

Yeshiva University

Made topics I listened to very understandable.

Dr Diane Indyk

Yeshiva University

Sounds like a great resources. Please continue to make it available.

Dr Daniel Larsen

University of Memphis

These look very useful.

Dr Bargh

University of Southampton

These talks are wonderful and absolutely essential for any teaching institution.

Prof Rao Desirazu

Indian Institute of Science

Very useful series.

Prof Dominique Belin

University of Geneva

This is very helpful.

Dr Donal O'Donoghue

University of Manchester

I spent the past 1.5 hours reviewing some of the talks on the various website. Yes, I think this is an outstanding collection.

Prof Donald Griffith

Baylor College of Medicine

I found the online talks very informative and professionally done. They are an outstanding source for information that will add a new dimension to our graduate and professional program.

Dr Deborah Otteson

University of Houston

Useful for information and training.

Dr Milton Whittaker

St. Kitts Biomedical Research Foundation

The Henry Stewart Talks is a great resource for academics and students alike on a wide variety of topics. I am happy to be able to access this collection.

HSTalks

Strongly recommended

Dr Vinod Agrawal

Smt.Kashibai Navale Medical College and General Hospital

There are many talks that are directly useful to the work I am doing. The lecture style of the presentations are extremely educational and an valuable source of information. I am very pleased to have found such a resource...I do hope the library purchases

Prof David Sacks

Harvard University

It is great to have access to this source. It will be helpful for teaching, research and learning.

Dr Dubraska Diaz-Campos

Washington State University

This is excellent and I wish to recommend it to PIs whom I work with in the Pi Development Programme here in Staff Development.

Dr Denise Dear

University of Cambridge

This is an excellent resource! (Next correspondence 03/08/2010) - I would indeed like to have continued full access. The collection is superb, and I look forward to new talks as they are added to the collection.

Dr David Wagner

University of Kentucky

Great resource!

Prof Diana Webber

University of Oklahoma Health Sciences Center

These talks can complement my pathology teaching. A very useful resource not to be missed.

Dr Dwight Assenheimer

University of Tasmania

Very interesting and useful.

Dr Dmytro Yushchenko

University of Goettingen

A great collection.

Dr Edwina Affie

University of Birmingham

Outstanding collection, a must for most serious institutions.

Prof Emad El-Omar

University of Aberdeen

The autism lecture was very clear and well-presented.

Prof Ernest Somerville

University of New South Wales

Very well done!

Prof Eric Westhof

University of Strasbourg 1 - Louis Pasteur

Excellent source for knowledge in new areas.

Dr Ehud Klein

Technion

The content is very interesting and together with the Supercourse one can get extremely excellent information from basic science to it's reflection in other aspects of a given question.

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Prof Ervin Adam

Baylor College of Medicine

An excellent teaching resource!

Dr Ellis Arnstein

Yeshiva University

Useful material for teaching and specialized talks.

Dr Enrique Bunster

Universidad de Concepcion

High quality and easy to use lectures suitable for both staff and students.

Prof Ronald Eccles

Cardiff University

*This is a good avenue for researchers to access to leading research talks
around the world online.*

Dr Edwin Chow

Astar

*Clear and concise lectures in various important topics, with excellent
speakers.*

Dr Eddy Karnieli

Technion

It is a informative and up to date resource. Invaluable collection and up to date resource for students, researchers and lecturers.

Dr Edison Muma

University of Helsinki

The information is very usefull for me, and my students.

Dr Edita Gaveliene

Vilnius University - Faculty of Medicine

Thank you so much! This is so helpful!

Dr Yeou-Cheng Ma

Yeshiva University

Excellent resource.

Dr Elijah Kehinde

Kuwait University

This is a great collection, and absolutely will help my science development.

Prof Ekihiro Seki

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

University of California - San Diego

High quality talks and a very good source of information.

Dr Elaine Cachia

University of Sheffield

It is a valuable support for teaching.

Prof Elio Ziparo

University of Roma - La Sapienza

The Henry Stewart Talks provide scientists a way to familiarize themselves with concepts by enabling learning and relearning at various levels. Scientists may learn at their own pace which is sometimes prohibitive in seminars. This tool could be useful fo

Dr Elisa Jackson

Pfizer Inc.

I find lectures a unique way of learning and a great supplement to the more traditional ways of gathering information (e.g PubMed). The collection is a valuable tool to students and scientists to learn more (in an easy and interesting way), stimulate idea

Dr Elisabeth Silden

University of Bergen

Excellent source of information.

Dr Eliseo Eugenin

Yeshiva University

Valuable tool for professor and students for different courses!

Prof Els Van Damme

Ghent University

We will be updated with recent information.

Dr Emdadul Hoque

Rajshahi University

These lectures are great resources on variety of topics. They are very helpful in teaching fellows in fields of neonatology/perinatology. Also deliver excellent summaries on basic research topics by renowned investigators.

Dr Emese Pinter

Yale University

I found the collection of talks to be a very useful source of information provided by high-caliber well-recognized experts in their respective area of research.

Dr Emilio Diez

GlaxoSmithKline

A wonderful service to refresh and update old knowledge and also to learn new areas. Thank you very much.

Dr Emir Tan

Bayer Pharma AG

Exceptionally intriguing to have and listen to. Very educating, I enjoyed the talk.

Mr Eldridge Nartey

GlaxoSmithKline

This resource is very useful especially for degree and research students.

Dr Enda Dunican

Institute of Technology Carlow

Excellent idea. The computer links worked well and the talks appear well prepared and clearly presented. I would certainly support this continuing and would recommend as a useful resource for students. These talks are great!

Dr Nicholas Wickham

University of Adelaide

I think it is a great idea. I just received the invitation and only had the time to browse quickly through the contents. The coverage of topics is comprehensive. The site will be a great resource, I am sure.

Prof Enrique Silva

University of Massachusetts - Amherst

They are really excellent. These are really outstanding.

Dr Elizabeth Penick

University of Kansas - Lawrence

*Keyword search works well and yields interesting seminars that I
wouldn't otherwise be aware of.*

Prof Elizabeth Peralta

Southern Illinois University (General)

*Talks by top-researchers in the field are very useful for my research and
for instructing colleagues.*

Dr Erik Fransen

University of Antwerp

*This is an excellent tool that will help any researcher involved in frontier
research. Its value will grow with time. It is like a science Juke Box. A
very commendable effort.*

Dr Erode Prabhakaran

Indian Institute of Science

This is an incredibly useful resouces.

Prof Eugene Thonar

Rush University

I think these series are a very valuable and a useful resource . I will certainly refer to the series for my lectures in years to come.

Prof Fouad Habib

University of Edinburgh

I have been through the site and some of the Talks which I would say without doubt are excellent and very informative for the field of Biomedical Sciences. Your site is very interesting with excellent talks

Dr Bibi Khodabocus

University of Mauritius

These talks are excellent and make an extremely useful addition for teaching both undergraduate and postgraduate students.

Dr Frances Fuller-Pace

University of Dundee

Very useful for me and my students, but also for other staff in biomedical sciences! Like the concept very much. A convenient and quick access to up to date knowledge in the biomedical and life sciences.

Dr Frank Voncken

University of Hull

Wonderful presentations and highly relevant to me work. Thanks.

Dr Felix Adah

University of Mississippi - Oxford

This is an excellent collection of resources. I would like to get access to it continuously.

Dr Fang Zhao

University of Helsinki

Excellent and succinct summary of the causes of mitochondrial dysfunction and energy metabolism, and their involvement in disease (especially, neural and muscle diseases). I showed this in my upper-level Neuroscience class (P346), and students responded

Prof Joseph Farley

Indiana University

This is a very important link for all scientist to keep up to date with talks/seminar that they have been unable to attend. I find most of the talk relevant for me.

Dr Fazal Oozeer

King's College London

Very high quality presentations. Good reviews to keep in touch with various fields away from my own expertise.

Dr Francis Davoine

University of Alberta

Some of the talks are of great interest.

Dr Felix Tan

Flinders University

I have found the relevant topics extremely useful. Also, having access to the World's best without having to pay hefty Congress fees is a privilege. I am very delighted with what has been offered to date

Dr Felix Potocnik

Stellenbosch University

This a wonderful resource for seminars and tutorials.

Prof Femi Oyebode

University of Birmingham

I very much look forward to using this valuable collection as a resource in my teaching activities.

Dr Frederic Ilfeld

University of Nevada - Reno

I viewed two of the talks in the Photosynthesis section and found them informative, interesting and helpful for my research and teaching of crop physiology at NCSU.

Dr Fitz Booker

North Carolina State University - Raleigh

Lectures are good and useful.

Dr Katerina Fliegerova

Institute of Animal Physiology and Genetics AS CR

Excellent resource.

Dr Fulvio Lonardo

Wayne State University

I would like to continue having access; these talks are really interesting.

Dr Francine Matthys

Institute of Tropical Medicine Antwerp

I did not realize that such a wonderful resource was available. Thanks for the encouragement to have a look at this. Please keep it accessible.

Dr Julie Forman-Kay

University of Toronto

It is an excellent way to be up-to dated in different areas of medicine. The neurological talks are superb.

Dr Felipe Pretelt

Pontificia Universidad Javeriana

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

An outstanding collection of lectures. An extremely useful resource for teaching

Prof Francesco Grignani

University of Perugia

Excellent talks, very useful as a learning and teaching resource!

Dr Frank Gesellchen

University of Glasgow

This is an essential series filled with many relevant medical and biological topics relating to research and education. I use this resource for both own education, and to assist in the educational mission of the School of Medicine.

Dr David Franklin

Tulane University

Thank you for the access to the collection! I will certainly use it.

Dr Friede Wenhold

University of Pretoria

Thank you very much for this excellent resource.

Dr George Fuchs

University of Arkansas for Medical Sciences

This is an excellent means to exchange ideas and incentivate collaboration among various universities.

Prof Anna Fuks

Hebrew University of Jerusalem

Allows students to work through material at their own pace and at their own convenience - resulting in a much more efficient way of learning

Dr Gerard Riley

University of Birmingham

These look great! Please sign me up.

Prof Peter Beardsley

Yale University

These were very good talks, particularly for students and staff, but I also found them very informative.

Prof Glenda Halliday

University of New South Wales

This is an outstanding and useful contribution to the scientific stream and of very good knowledge. The quality of this collection is excellent in my experience for the biomedical field.

Dr George Iskander

University of New South Wales

First talk I have heard in this resource: very impressed.

Prof Graham Dockray

University of Liverpool

I find these talks exceptionally useful particularly when one needs to get into a new area of research quickly. We had access in my previous institute at UCL, London, and it would be very useful if we could have access at Imperial. Many thanks.

Dr Gisela Lindahl

Imperial College London

This is a very useful resource for students, teachers, and professionals. Hope it will continue to expand in the near future.

Prof Varban Ganey

Sofia University

Thank you very much for this great work done.

Dr Ganna Gladka

GlaxoSmithKline

Looks superb. Hope our Uni subscribes in future.

Dr Gareth Denyer

University of Sydney

Fantastic-I have wanted to find a place to update my understanding of molecular genetics-partiucularly of mitochondrial DNA-and appreciate your making it available for me through this resource of lectures on line. Thank you, thank you, thank you!

Dr Garry Shomair

University of Toronto

If kept up to date this resource will be incredibly valuable to students and researcher needing to keep abreast of the latest scientific developments. It would provide additional information that could/would supplement and complement print resources that

Dr Gary Sahagian

Tufts University

This is a valuable resource that I was previously unaware of. I have bookmarked it and have filled out the feedback form via your link.

Prof Vini Khurana

Australian National University

The talks are excellent in both range and quality. I have viewed several myself on CV disease and statistical method. They would make a welcome addition to my teaching. I was astounded by the quality and up to date nature of most of the material I viewed.

Dr Gavin Sandercock

University of Essex

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

This is a particularly useful source of learning as well as teaching material for a range of disciplines and I am very willing to continue using it.

Dr Nicholas Hickson

University of Sheffield

It is extremely important for students and scientist to have access to these talks.

Prof Gorm Danscher

Aarhus University

Wealth of information for students and staff presented in an effective way.

Prof Gurmeet Dhaliwal

Universiti Putra Malaysia

I found this collection was very helpfull in both my teaching and research. I hope that CWRU will continue the effort to aggrange full access to the collection.

Dr Ge Jin

Case Western Reserve University

Fantastic resource.

Dr Gee Lau

University of Illinois - Urbana Champaign

The talk on recombination and chiasma formation is quite outstanding and should be made available to all undergraduate and postgraduate students in genetics, everywhere! It presents a clear, factually correct and up-to-date understanding of the origin, st

Dr Geoff Rickards

Victoria University of Wellington

These are excellent talks and a very excellent resource for me.

Prof George De Vries

University of Illinois - Chicago

Great opportunity for knowledge distribution.

Prof Gerhard Weinbauer

Covance

Excellent resource. Looking forward to exploring what other topics/titles exist.

Dr Gerry Cooper

Northern Ontario School of Medicine

Good comprehensive overview - very useful.

Dr Gareth Gerrard

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Imperial College London

This is a fabulous collection of talks that any university faculty should have access to. I sincerely hope that my university library subscribes to it.

Dr Gholson Lyon

University of Utah

As we are based in South Africa, our students are not exposed on a regular basis to high quality lectures and seminars. Access would help me a lot in helping improve the quality of our student education and their awareness of science on the international

Dr Gil Lustig

University of KwaZulu-Natal

Very good educational material.

Prof Gilles Theriault

McGill University

These talks would make an invaluable resource for both my taught and online course in basic health sciences.

Dr Gillian Allison

University of the West Indies

Very good and exhaustive lesson.

Prof Giuseppe Altavilla

University of Padua

Provides valuable input for updating course material.

Dr Gerald Marsischky

Indiana University

A very fine resource.

Dr Gregory Gustafson

Cornell University

Many of these videos are perfect for online learning for both our medical and Ph.D. graduate students. The faculty have been trying to find more ways to achieve this - to let the students learn on their own time rather than sitting in a lecture hall. Th

Dr Gale Newman

Morehouse School of Medicine

A very important live and lively adjunct to lectures..You need to advertise more widely.

Prof Irving Gottesman

University of Minnesota - Twin Cities

Excellent information and quality of all talks.

Prof Gabriel Maldonado

Universidade de Sao Paulo

...while all of the articles are not directly relevant, some of them are while the others supply an added dimension to what is taught. Could be very useful, especially for students conducting research.

Dr Grace Charran

University of the West Indies

This is a great resource!!!

Prof Glen Rains

University of Georgia

This is a great tool for lecturers and students. Very easy to use in classroom or merely to find new ways to present your data. An excellent collection that should be available to every lecturer and student.

Prof Gregor Starc

University of Ljubljana

I picked a few talks from the menu and find them quite clear and well presented. Though, I am a Marine Ecologist and the topics covered by now lie on very different scientific domains.

HSTalks

This is an amazing resource!

Prof Juliette Cooper

University of Manitoba

An excellent teaching and resource tool.

Dr Jo-Anna Dolling

Health Science Information Consortium of Toronto

Nicely done. Very informative.

Dr Joann Eble

Ohio College of Podiatric Medicine

This is a great resource. Please keep up the good work.

Prof Jeff Camhi

Hebrew University of Jerusalem

When there is even a remote appropriate overlap in research topics, there can be valuable new ideas promoted by critically reviewing a quality presentation it can be assigned as an alternative to reading a research paper as a preparation for prompting dis

Prof Jeffrey Stansbury

University of Colorado - Denver

This is a great reference for me and my colleagues. Thanks for the opportunity to utilize this database.

Dr Joseph Margarone

University at Buffalo

Excellent to supplement GENE3200 curriculum. Excellent for genetics classes.

Prof Tracie Jenkins

University of Georgia

Excellent updates, very useful teaching resource.

Dr Jennifer Schwarz

University of Melbourne

Provides an excellent lecture series to orient beginning graduate students to the relevant background knowledge of their chosen field of research training.

Dr Jerry Warsh

University of Toronto

After returning from a conference I had now time to check out the excellent talks. I would greatly appreciate if I could get continuous access to this collection of talks for the next time I teach a grad course.

Dr Juergen Gailer

University of Calgary

This is an excellent idea that I strongly support.

Prof John Gallagher

University of Manchester

The animations in the videos are a very useful tool to engage students who are more and more used to visual presentations.

Dr John Gray

University of Toledo

I certainly wish to continue access to this collection. It is a good resource and should become a useful reference/study tool.

Dr Jacqueline Hibbert

Morehouse School of Medicine

Very useful for our undergraduate and postgraduate courses.

Dr J Pringle

University of Leicester

These talks are absolutely wonderful with indepth and latest informations on all the topics. It is great especially for teachers in medicine and specilaists to listen and view these series.

Prof Jioji Malani

Fiji National University

Excellent learning resource.

Dr Jizu Zhi

Stony Brook University

This is an excellent resource and will aid both undergraduate and post-graduate students in the School of Pharmacy.

Dr Jacques Joubert

University of Western Cape

Very beneficial. Thank you.

Dr Jamal Khader

King Hussein Cancer Center

This is a terrific resource! One of the best innovations I have seen lately. This should help students and postdocs improve their own skills...It is an excellent resource.

Dr Jeannette Kunz

Baylor College of Medicine

I have had the opportunity to listen to some of the talks available at this site - This is tremendous resource. We will incorporate some of these lectures into our immunology course.

Dr Joseph Larkin

University of Florida

A delightful innovation, bringing international talks to overcome medical arrogance in the United States...I am looking forward to new knowledge

Dr Jay Lefer

Yeshiva University

*Although I have only had the opportunity to go through The Biomedical & Life Sciences Collection rapidly, it is clearly of great interest to me and to my colleagues and students. I am grateful to you for producing it.
Many thanks.*

Prof Jindrich Lokaj

Masaryk University

I would love to have access to this collection. Extremely useful.

Prof José Alonso

North Carolina State University - Raleigh

Excellent range of informative and authoritative talks.

Prof Julian Mercer

Deakin University

Excellent instrument.

Prof Joseph Miltz

Technion

My students find them a very helpful resource in their academic progression.

Dr Judith Lynch-Sauer

University of Michigan

This talk is the definitive source for this particular subject. Concise, clear, scholarly.

Dr Joan Murphy

University of Toronto

An excellent series of slideshows, very informative!

Mr Joby Jose

UCB Pharma

Excellent talks useful both for researchers and for students. Should be bookmarked by everyone working in a research lab.

Dr Jocelyn Laporte

University of Strasbourg 1 - Louis Pasteur

Terrific site with lots of excellent up to date information. I will come back to it many times.

Prof Joe Beitchman

University of Toronto

Looked at the excellent talk by R Marais - will view more soon. Thanks!

Dr Johan Hansson

Karolinska Institute

It's an excellent collection of talks covering a wide selection of topics - I'd like to have access to it!!

Prof Johan Malm

Lund University

Learning at your own pace and from experts with audio and visual and diagrams or videos, maximises a learners chances of understanding.

Dr John Barwise

Vanderbilt University

When appropriate topics are available, this can be a very useful resource for faculty developing new courses or presentations outside their research area.

Prof John Maggio

University of Cincinnati

Website is easy to use...good variety of topics.

Dr John Ziegler

University of Utah

*For me it has given new insight into the the latest devolpments in NMR.
Hearing from Experts will make a difference. Those who love to gain
knowledge will find this place as Eden.*

Dr Milesh Thattassery

Biocon

*These used to be available... I want to show one lecture tomorrow. It is
the one by Dr. Linda Partridge on the evolution of aging...This is an
outstanding instructional resource.*

Prof Tom Johnson

University of Colorado Boulder

*I must admit I have looked forward to using this resource more than I
have actually used it. I think it is great and strongly suggest that we
continue to subscribe.*

Dr J. Pratt

Indiana University

*Thank your for the perfect chance to access The Biomedical & Life
Sciences Collection. I would like continue access to this collection. This
information is useful for our students teaching and reseach work.*

Dr Jolanta Stankeviciene

Vilnius University - Faculty of Medicine

I find this collection very useful with respect to the topics, the relatively broad coverage which may be of use for PhD students and as a reference for providing useful slides.

Dr Jon Skorve

University of Bergen

I find these talks to be supportive in the delivery of the medical curriculum for the PA Program.

Dr Jonathan Weber

Yale University

This collection is awesome!

Dr Ekaterina Laz

Boston University

I am very interested in using this resource.

Dr Jose Gomez

University of Saskatchewan

These conferences are very beneficial for students. The library should sponsor and disseminate this information throughout the University system.

Dr Jose Orengo

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Excellent resource to enable quick review of topics of interest that may otherwise be missed.

Dr John Pepperell

Brown University

I have found the talks thorough and useful, in particular to get an initial overview when starting a new subject in research.

Dr Jens Morth

Aarhus University

Very nice system!

Dr Jukka Matinlinna

University of Hong Kong

The speakers behind these talks are leaders in their respective fields. These talks cover not only the basic concepts but also advancements in the field. I personally went through some of these talks with which I am not very familiar, and of course recomm

Dr Jianming Qiu

University of Kansas - Lawrence

The Biomedical and Life Sciences Collection will be very useful in keeping myself and my trainees (postdoctoral fellows, neuropsychology interns, and neuropsychology graduate and undergraduate students) with the highest level perspective on some important

Dr Joseph Sadek

University of New Mexico - Albuquerque

I have viewed several of these seminars, and have decided that they would be excellent teaching material for our graduate students... I have sent the link to several other faculty.

Dr Jeffery Sample

Penn State University

This is a great resource. It would be even better if you could download some of the slide materials into my lectures.

Dr Julia Shifman

Hebrew University of Jerusalem

I found the talks here very informative, not too lengthy, and well produced. Thanks.

Dr Joyce Slusser

University of Kansas - Lawrence

The Biomedical and Life Sciences Collection is a great resource for our fellows, Ph.D. Students taking human genetics and faculty.

Dr Jonathan Stiles

Morehouse School of Medicine

Wonderful lectures! I would like to continue full access to this collection.

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Dr Jon Stone

McMaster University

Excellent reviews of current science! The range of lengths of the talks are just right for busy professionals like myself. There are lots of topics of relevant interest to me, both for my personal learning and professional development. I would highly reco

Dr Janet Tien

Genentech

The access information was on a previous email, and I found it a little after I sent you the feedback, so I am now very much enjoying the full talks. Really excellent and helpful. I do hope our University will be able to continue this excellent resource

Dr Junette Mohan

University of the West Indies

Thank you very much for your kind notice. I am glad that University of Ljubljana got the subscription access, because this is indeed a valuable collection of talks.

Dr Jurij Bon

University of Ljubljana

An excellent collection of up-to-date lessons from various biomedical and life-science fields. Great source of knowledge for everyone from students to the experts.

Dr Miloslav Juříček

Complex of Biomedical Institutes

I think this is going to me a very valuable resource for students who have gaps in their background knowledge.

Dr Judy Wieber

Cold Spring Harbor Laboratory

So far, each talk that I have listened to is really outstanding. These are an invaluable resource for students and faculty alike...I use this series relatively often. In one of our recent papers, Frisa, BMC Cell Biology, 2010, we cite some of these lectu

Prof James Jacobberger

Case Western Reserve University

I have really enjoyed the online presentations and so have my students.

Prof Jeff Yarger

Arizona State University

A very good and expanding collection of materials that would be highly beneficial to both our late stage undergraduate students as well as our postgraduates.

Prof Iain Cumming

University of Kent

I teach virology - useful for my teaching.

Dr Kartini Saibeh

Sabah University of Malaysia

I had a short look to the collection and the talks are very relevant and attractive.

Prof Kalervo Hiltunen

University of Oulu

I already tried Henry Stewart Talks and found it very useful and educative. I wish that Cardiff University continue its subscription with you.

Dr Kamel Hussien

Cardiff University

There are several interesting and relevant lectures and hopefully more to come.

Prof Karen Olsen

University of Southern Denmark

This is a wonderful source of international information, thank you.

Prof Karen Montella

Brown University

This is a wonderful resource, and I will use it...I would like to be able to show the following video to my classes. Thank you for your help.

Prof Karen Burns

University of Utah

I would like additional access if available through this website. I have previewed these talks briefly and find that they may indeed provide additional high level support to our nursing program and its ongoing research needs.

Dr Kathleen LuPone

Arizona State University

This collection is an excellent resource.

Prof Kathryn Ruoff

Dartmouth College

Great material!

Dr Kathryn DeRiemer

University of California - Davis

Great talks! Great idea.

Prof Kottarappat Dileepan

University of Kansas - Lawrence

Thank you sounds great! I am so grateful for this wonderful resource.

Prof Ann Keeley

Mercer University

All I can say is WOW WOW WOW Very nice job and these are great for teaching. I will definitely keep this info in mind for classes this fall.

Prof Duane Keisler

University of Missouri - Columbia

A useful resource.

Prof Keith Tanswell

University of Toronto

I found the Biomedical & Life Sciences Collection very useful and of very high quality resource. I hope Yale continue the subscription beyond 2009.

Dr Keun Chung

Yale University

I found this presentation very informative and in future will suggest that all new PhD/MSc students take a look before embarking on their projects.

Prof Kevin Morgan

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

University of Nottingham

These are excellent seminars and a great way of learning. Highly recommended!... These are really great collections and a very good way of learning at ones ease. I hope that the University of Nottingham buys some!

Dr Kevin Pyke

University of Nottingham

This is an wonderful resource! Please continue to make this available!

Dr Kevin Truong

University of Toronto

Brilliant presentation. Clear and easy to follow. Great graphics.

Dr Kenneth Wysocki

University of Pittsburgh

This is an outstanding teaching and research resource for undergraduate students, graduate students, and faculty in Anthropology, Biology, Medical School, Epidemiology and other departments.

Prof Keith Hunley

University of New Mexico - Albuquerque

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Very useful to a variety of scientists instructors and clinical faculty. I highly recommend subscription by our institution.

Dr Kiarash Kojouri

University of Oklahoma Health Sciences Center

Excellent easy access to complex material from experts in the field and excellent resource for staff and post graduate students... I consider this series an excellent source of up to date information in a palliative format. I highly recommend the series f

Prof Kieran Killian

McMaster University

The series on innate immunity has been a useful resource for teaching and the series on macrophage heterogeneity has been useful in my research. I am looking forward to the biomarkers series.

Dr Kim Quimby

University of the West Indies

Yes definetely - I and my student appreciate this possibility gratefully - thanks !!

Dr Karen Cour

University of Southern Denmark

Excellent presentations, (great speakers, very good slides, and explanations) from many attractive research field. I personally like this form of teaching.

Dr Klaus Felix

University of Heidelberg

Excellent overview of Vit D and autoimmunity. Thank you.

Dr Robert Klick

University at Buffalo

I do like the talks and my students found them very useful.

Dr Khawla Nuseir

Jordan University of Science and Technology

Useful educational tool.

Dr Lawrence Kobetz

McMaster University

A wonderful resource!

Prof Joyce Koenig

Saint Louis University

Clearly this resource is important for teaching on all levels (from undergraduate up to postdocs) as well as for maintaining the researches updated in our fast developing fields.

Prof Abraham Korol

University of Haifa

It was a very nice idea to record these excellent talks and to access them to experts and students living anywhere in the world. I strongly hope that this Collection will increase the standard of teaching and research in The Biomedical & Life Sciences.

Prof Laszlo Kovacs

University of Debrecen

Very high quality. Information dense.

Prof James Kowalski

University of Rhode Island

Very useful for teaching and getting overviewed information.

Prof Christopher Rhodes

University of Rhode Island

I think these talks are really useful and make a valuable source of information to both the younger student as well the more specialized clinician/researcher. I will surely guide my students to these talks.

Dr Karol Budohoski

University of Cambridge

The hstalks have been tremendous resource for me and my students, i highly reccomand it and wish for my library to make a subscription.

Dr Khawla Nuseir

Jordan University of Science and Technology

Thanks for updates. It is simply, great!

Prof Kristijan Jezernik

University of Ljubljana

I believe the online lectures in this website can benefit to the entire COH research community especially graduate students here.

Dr Kato Shum

City of Hope Cancer Center

*I would love for the UW Libraries to subscribe to these talks (note: I asked the acquisitions folks there a few months ago to subscribe but they noted that it was not feasible currently with the library's budget crunch.)
I really love the talks -- especia*

Dr Geoff Kushnick

University of Washington - Seattle

On the web site are very high quality lectures helpful in pregraduate and postgraduate teaching, really useful ...

Prof Kvetoslava Rimarova

Pavol Jozef Safarik University in Kosice

Very useful tool for teaching.

Dr Lesley Bergmeier

Queen Mary University of London

This looks like a brilliant resource, which I am sure will be a great help both to me and my students. It also seems to be very simple to use.

Dr Leigh Gibson

Roehampton University

Excellent resource from well known scientists - would make a valuable teaching aid for 3rd year/MSc or PhD students.

Dr Lynda Partridge

University of Sheffield

These talks are excellent. They are a little high level for the majority of our undergraduate classes but would be useful in our 500 level and graduate classes.

Dr Lainy Day

University of Mississippi - Oxford

Thank you very much for sending me this excellent resource and would indeed like access to it please.

Dr Lamia El-Adwar

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

University of British Columbia

I found it very user friendly and up to date

Dr Laura Castro

Tufts University

I have had a chance to look closely at this collection and I have to say it looks amazing. I teach pediatric nursing and the topics covered are very relevant and interesting!! I am in the process of modifying and changing my course and look forward to be

Dr Laurie Gedcke-Kerr

Queen's University

Excellent opportunity to have first class summaries of topics not closely related to your own research.

Dr Balint Balint

University of Debrecen

I have followed some of the topics covered by the BLSC and really enjoyed it! The talks I have seen were presented by prestigious scientists in their respective fields who were clear and perfectly adequate for students in some of our courses. I certainly

Prof Luis De Ferreira

Universidade de Sao Paulo

Thank you for the invitation to receive access to the Biomedical and Life Sciences Collection. I would very much like to have such access.

Dr Lawrence Cytryn

Yeshiva University

Great series, will utilize this more in the future, particularly the topics addressing Cancer Pain and Design and Analysis of Randomized Clinical Trials.

Dr Lara Dhingra

Yeshiva University

Many thanks!

Dr Lee Machado

University of Northampton

Some of the series will be quite useful for me and my students to grasp concepts.

Dr Youngsoo Lee

University of Illinois - Urbana Champaign

A great source!!!... I will appreciate having a full access for as long as possible.

Dr Lena Lavie

Technion

Excellent resource.

Dr Pamela Lepera

East Carolina University

Excellent lectures.

Prof Lesley Rhodes

University of Manchester

I have downloaded the talks appropriate to my teaching of Neuropsychiatry and given some a trial run with students. They have been well-received and would make a very useful addition to our teaching armamentarium. I would be very interested in being abl

Prof Les Koopowitz

University of Adelaide

Please give me access to this valuable resource!

Dr Bruce Levison

Case Western Reserve University

This precious resource bringing the vast quantum of the latest biomedical developments, capturing basic and applied medicine to one's desk so lucidly. A swell introduction by the University!

Prof Lexley Pereira

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

University of the West Indies

This looks like it could be a valuable resource...

Prof Louis D'Alecy

University of Michigan

Outstanding resource!

Dr Qing Li

Peking University

*These talks add such a wonderful element to graduate discussion courses.
Thank you!*

Dr Alice Lindeman

Indiana University

*Excellent talks that provide a good introduction to diverse areas of cell
biology!*

Dr Robert Lindner

Leibniz Universitat Hannover

*I would like continued access to the Biomedical and Life Sciences
Collection.*

Dr Lionel Grossbard

Columbia University

The talks are also a fantastic teaching resource... especially in terms of supplying students supplementary material.

Prof Linda Isbell

University of Massachusetts - Amherst

Excellent addition to students and faculty alike! Highly recommended.

Prof Liliana Jaso-Friedmann

University of Georgia

I found your approach to knowledge dissemination fantastic, noble and open minded. Hope it will continue to grow.

Dr Ljiljana Mlinar

University of Zagreb

Very useful resource - faculty should have access to this collection.

Dr Lisa Kamendulis

Indiana University

Finally, an efficient electronic means to access, learn from, and enable those most accomplished in the biomedical and life sciences to teach our students.

Prof Lloyd Kolbe

Indiana University

The collection is very interesting from feedback received from my academic staff.

Prof Li Wah

University of Mauritius

Great resource for my colleagues too.

Prof Lawrence Lumeng

Indiana University

Unbelievable resource for students and faculty, alike!

Prof Lisa Minter

University of Massachusetts - Amherst

This collection was extremely useful and would be a great asset for NCSU to have.

Dr Linda Robles

North Carolina State University - Raleigh

These talks are awesome for all Biology Graduate Level courses and 4th year undergraduate courses.

Dr Logan Donaldson

York University

Excellent to have this access to talks. Very useful specially to graduate students as well as academics.

Dr Lopa Leach

University of Nottingham

Thank you!

Dr Lorella Garofalo

McGill University

This is an innovative teaching tool that is highly accessible for staff and students. Congratulations for coming up with this idea. This is a fantastic resource for both staff and students. It allows the individual to "sit in" on the seminars and learn at

Dr Lorwai Tan

University of Adelaide

I think this is a fabulous resource for faculty and students alike, and I hope we can maintain access.

Prof Marc Loudon

Purdue University

I found the lectures excellent and have recommended it to the library.

Prof Louise Chow

University of Alabama - Birmingham

Excellent series! Tech support would be of great help for technical glitches. Thanks.

Dr Lawrence Tran

University of California - Los Angeles

These talks are an excellent tool for PhD students, postdocs and professors here on the Medical & Health Sciences campus. In addition, because of their clear structure and their presentation by authoritative science leaders, they are well suited to be inclu

Prof Luc Leybaert

Ghent University

Students appreciate new media, and are oriented to learn from this modality.

Dr Larry Amsel

Columbia University

The collection is a useful resource for me and/or my colleagues. I will refer my students to this resource. I would like to be updated when new series and talks are added to the collection.

Dr Ljiljana Vasovic

Yeshiva University

Helpful information. Easy to use. Can start and stop as needed.

Dr Lawrence Weiss

University of Memphis

The collection is useful for students to pick up new ideas.

Prof Peter Lwigale

Rice University

*The talks have provided access to a range of world leaders in their fields.
I couldn't attend all the conferences it would require to hear these
leaders.*

Dr Lynda Norton

Flinders University

*I think this is a tremendous resource especially since many of the talks
are given by faculty who are top of their field.*

Dr Lynn O'Connor

National University of Ireland - Galway

*Looks like an invaluable resource, particularly for my cardiovascular
teaching.*

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Dr Lynn Weber

University of Saskatchewan

Excellent source of information for colleagues and students alike.

Dr Majed Alnaqeeb

Kuwait University

The series cover many topics in a rich variety of formats. This is very useful supplementary material for teaching, it will appeal to students with a wide variety of backgrounds.

Dr Dawn Teare

University of Sheffield

This is a truly outstanding resource and a must have in this era.

Dr Mona El-Bahrawy

Imperial College London

I believe these represent an extremely valuable resource for both UG and PG students.

Prof Mick Tuite

University of Kent

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

I have just had a look at some of the lectures in this series. This indeed looks extremely useful. The features of having the slides and handouts and being able to listen to these talks at a time that suits me/my students is extremely useful. I would very

Dr Marie Helfrich

University of Aberdeen

This is a fascinating collection .I am most impressed and please4d to be able to access this fascinating archive.

Dr Mary Hoptroff

Swansea University

The talks that I have looked at have been excellent and I see as a very valuable resource for both higher level teaching and research.

Dr Michael Lethem

University of Brighton

These are excellent teaching tools

Prof Martin Glennie

University of Southampton

This a valuable and interesting resource that I am keen to draw on for research and teaching.

Dr Michelle Winslow

University of Sheffield

This is an important resource which should be available to our staff and students.

Prof Michael Quastel

Ben Gurion University

I would like to continue receiving this fabulous scientific content that both updates and assists in assembling the content of lectures, group discussion and research.

Prof Maria Borsatti

Universidade de Sao Paulo

This is simply great - The Biomedical & Life Sciences Collection.

Dr Ziaeddin Shariat-Madar

University of Mississippi - Oxford

Very good place for introductory material/ to resource primary material.

Dr Madeleine Headlam

Queensland Institute of Medical Research Berghofer

Very good resource indeed.

Dr Madhusudan Dalvi

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Imperial College London

This is an excellent resource, especially these times when interdisciplinary collaboration is key to scientific advancement, as it allows one to get great reviews from top researchers of various fields.

Dr Maria Diaz

Baylor College of Medicine

These lectures are informative and helpful.

Dr Magdalena Coetzee

University of Pretoria

This is a high quality technical resource - the material is very specialised but could be extremely useful.

Dr Maggie Roberts

University of Nottingham

Indispensable to me, particularly when I am out of the country for extended periods.

Dr Beiser

University of Toronto

Very useful to my job.

Dr Maixing Ai

Covance

I have browsed some of the talks dealing with language and found them of great value, both for my research and teaching.

Dr Manuel Hulliger

University of Calgary

Engaging format and excellent speakers - very worthwhile.

Prof Maralyn Foureur

University of Technology Sydney

These talks and lectures will certainly be extremelly usefull not only for regular classes for graduate and undergraduate students in the biomedical sciences but also as addition for discussions in lab seminars.

Prof Marcello Barcinski

Universidade de Sao Paulo

Excellent resource.

Dr Maria Tuohy

National University of Ireland - Galway

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

I would be very interested in continued access to these talks as they provide a good background to areas in biology that I would not usually take the time to learn about.

Dr Marie Wagle

Genentech

Thanks a lot for your invitation. It's a pleasure.

Dr Marie-Frédérique Bacqué-Guillou

University of Strasbourg 1 - Louis Pasteur

The Biomedical & Life Sciences Collection provides a practical wealth of knowledge all in one repository with easy access. I believe that it is useful for faculty, staff, and students and will only grow in its use as the word about it spreads.

Dr Mario Davidson

Vanderbilt University

A very valuable resource.

Prof Marion Walker

University of Utah

This is an incredibly useful resource. I have already found a couple of talks that are very informatics. It also saves time - in that I can look at it when I am able to and do not have to travel to specific talks.

Dr Marketa Zvelebil

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Institute of Cancer Research

Useful and robust!!

Prof Marla Wolfson

Temple University

Excellent talks!!!!

Dr Marta Koch

Katholieke Universiteit Leuven

In my initial evaluation of this resource I found a wealth of useful material here. I have already recommended the site to my lab (which includes several graduate students) because of the material on gene regulation and pharmacogenetics.

Dr Martin Kennedy

University of Otago

In the peptide field the presentations were top notch!

Prof Lenore Martin

University of Rhode Island

An excellent site. I hope you can produce many more talks in the biomedical sciences. Hearing the experts themselves is invigorating for those of us who cannot attend a variety of scientific meetings.

Prof Jon Martin

Mercer University

As an environmental scientist this resource is useful to get an understanding of biomedical sciences and where this discipline might overlap with my own.

Dr Martina Doblin

University of Technology Sydney

What I have seen so far is excellent! -a great resource.

Dr Mary Tatner

University of Glasgow

Very clear presentations. Will serve as a great resource to enhance our teaching abilities for medical students, residents and subspecialty fellows. Easy to navigate through the fields, nice handouts with slideshows.

Dr Mary Hodge

Tufts University

Based on what I have seen, the access to these talks would be extremely useful.

Dr Matthew Cook

Australian National University

This is an excellent service, and the presentation are of high quality.

Prof May Faraj

University of Montreal

Great...

Dr Michael Harington

University of Saskatchewan

The collection is excellent to learn about a field which is not the major focus of your research. The presentations provide quick easy but at the same time sufficiently deep insight into specific areas of research.

Dr Markus Bitzer

Yeshiva University

I have really wonderful time watching these lectures. They cover hot topics in very attractive way. I wish to share them with students and with my friends interested in biochemistry and molecular biology!

Dr Radoslaw Kuciel

Jagiellonian University

The caliber of the professors delivering these talks is excellent. They will be a fantastic teaching resource for biotechnology courses.

Dr Mary Booth

Athlone Institute of Technology

The talks I looked at were well done and they look like they will be a valuable educational tool for my graduate students as well as a useful reference for everyone in my lab.

Dr Mark Hall

Purdue University

I would certainly use this as a resource for classes in which I am the course director.

Dr Laurie McNelles

York University

Very interesting.

Dr Maria Ortega

Pontificia Universidad Javeriana

The talks are helpful teaching tools.

Prof Maria Valenzuela

University of the Andes

I entered this site & was amazed at the breadth of coverage provided. I tested programmed cell death & cell motility & was rewarded with several detailed first-rate essays for each.

Dr Allan Dingle

McMaster University

It is an excellent collection. I am grateful for the facility to access it.

Dr Ragini Bhake

University of Bristol

This is a fantastic opportunity to further learning when the opportunity to attend some lectures is not available. Thank you.

Dr Samantha Dixon

University of Bristol

This is an interesting website and it appears to contain good resources which could be customized as ongoing educational tools for our field medical & scientific affairs team.

Mr Mohamed Eid

Novo Nordisk

I think the whole series is first class and a very valuable resource , especially for students, post- docs and medics in training.

Prof Mel Greaves

Institute of Cancer Research

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Spending 30 minutes watching a talk is much more efficient than spending a week to read through the literature/text books in order to understand some aspect of biology that is required for project development.

Dr Melanie Patterson

Abbott Laboratories

Very interesting.

Dr Giovanna Meloni

University of Roma - La Sapienza

I think this collection of talks will be very interesting for my teaching purposes.

Prof Miguel Martinez

University of Barcelona

Very good idea to have this kind of vivid presentation.

Prof Mong-Hong Lee

M.D. Anderson Cancer Center

Useful information in an accessible format.

Prof Michael Speca

University of Calgary

Very interesting and useful source.

Prof Michael Pfaller

University of Iowa

This is an excellent source.

Prof Min-Huey Chen

National Taiwan University

Outstanding presentations. I work in the chaperone field and the lecture series on molecular chaperones and protein folding presented as extensive and well-informed an overview of each field as I have ever seen. Much better than a textbook or Annual Review

Dr Saurav Misra

Case Western Reserve University

Very important that faculty and students have access to these lectures.

Prof Mark West

Aarhus University

These talks provide an excellent source of current information on a variety of topics of interest to the students, teachers and research workers in the field of biological/biomedical sciences. Over the years I have found them immensely valuable.

Dr Manju Kapoor

University of Calgary

An AMAZING resource!! Many thanks indeed.

Prof Maurice Kibel

University of Cape Town

These talks would be a valuable adjunct to classroom lectures for students and help faculty members access basics of areas related to their research programs to enhance and update their knowledge.

Dr Mary Michaelis

University of Kansas - Lawrence

Excellent resource. I would like to have this type of resource for teaching.

Dr Mitchell Mah'moud

Duke University

This is a brilliant and updated conference of Prof. Barnes, who does not need any introduction. The Biomedical & Life Sciences Collection is a very useful in teaching and research, and should be make available for the Brazilian scientists.

Dr Marco Aurélio Martins

Fundacao Oswaldo Cruz

This is a great source of knowledge!

Dr Mauricio Martins

University of Miami

Love it!! Great to see that the slide show is printable.

Dr Melvina McCabe

University of New Mexico - Albuquerque

Excellent resource, congratulations!!

Dr Maite Mendioroz

Institut Recerca Hospital Vall Hebron

I use the talks regularly and they are a great resource. It saves a lot of time and effort when you are trying to master a new area of Science especially when your experiments have taken you down a road you did not expect.

Dr Mohini Gray

University of Edinburgh

This collection will be of considerable use to graduate students (and faculty!) who work in interdisciplinary areas and need to have feel for the fundamentals of research fields about which they know very little.

Prof Scott Mohr

Boston University

Thank you – quite useful. Excellent resource - for both research and teaching.

Dr Monde Ntwasa

University of the Witwatersrand

It is very important for the teachers from the Faculty of Chemistry be updated about this ...

Dr Norma Gonzalez

Universidad Nacional Autónoma de México

The talks are very useful and cost effective while many are not able to attend these talks.

Dr Farahani

University of Liverpool

I think it is the greatest thing since Ipad. Truly love it and wish I had more time to learn from it.

Prof Richard Moser

University of Massachusetts Medical School

I would like to see continued access for our company. A very high quality online tool which provides great convenience for quick access to experts in their field.

Dr Marian Mosior

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Eli Lilly & Company Ltd

They are very in-depth, high quality.

Dr Anthony Moss

Auburn University

This is an outstanding resource.

Dr Marion Millan

University of Alberta

*The presentations are extremely beneficial in my preparation of lectures,
as well as informing graduate students.*

Dr Matt Sylte

University of Georgia

*A quick look and I agree it's good and would be useful to me for both
undergrad and post grad student education. I looked at the Mittler talk
and it's well put together and covers main aspects of plants in their
natural environment when suffering stress.*

Dr Phil Mullineaux

University of Essex

*This is a real outstanding resource of excellent scientific talks from the
experts of their fields. Therefore, I think it would be very useful for not*

HSTalks

only all of the department but also for medical students and faculty. I would like to be provided access

Dr Murat Dogru

Umea University

I found this work very useful, especially for the scientists, who are not native English speakers and cannot frequently attend scientific meetings in their area frequently.

Prof Mustafa Gul

Ataturk University

Good collection... I enjoyed browsing to get ideas for lecturing...Can see it could be good for biology students...

Dr Marjan van der Woude

University of York

Excellent resource for teaching and research!

Dr Mingyao Yang

University of Cambridge

These talks look very interesting and useful.

Prof Chris Myers

University of Utah

I listened to part of a statistics lecture. I was impressed.

Prof Nathan Pace

University of Utah

Great site!

Dr Anne Alvarez

University of Calgary

The collection is superb. Only because I am not teaching in basic sciences at this time, my referral to students would be limited. I will find it personally very valuable.

Dr Nancy Flowers

University of Kentucky

...Many thanks for this.

Dr Nuala Sheehan

University of Leicester

Great initiative.

Dr Natasa Skalko-Basnet

University of Tromso

Great for research and for PhD students.

Dr Nathalie Boulanger

University of Strasbourg 1 - Louis Pasteur

Invaluable. I will refer this to students and colleagues.

Dr L. Navar

Tulane University

Highly useful, I did not understand the topic until I listened to this lecture.

Prof Nabil Bashir

Jordan University of Science and Technology

Good learning opportunity and great system that makes it possible to squeeze lectures into a very busy schedule.

Dr Niels Blume

Novo Nordisk

This is a fantastic idea. Really informative and easy to use.

Prof Nancy Burkhart

Texas A&M Health Science Center

Excellent resource for our faculty and students.

Dr Nelson Baeza

Universidad de Concepcion

This is an important asset to our Fellowship training programs.

Prof Neila Shumaker

University of Nevada - Reno

It is a very useful resource.

Dr Mohammad Nekoofar

Cardiff University

Excellent series.

Prof Neville Pillay

University of the Witwatersrand

I enthusiastically support this initiative and am ready to contribute to it. I recommend to our Library to subscribe on all your talks, certainly on all those in evolutionary medicine.

Prof Eviatar Nevo

University of Haifa

HSTalks

ONLINE LECTURES
BY LEADING WORLD EXPERTS

This is an amazing collection of knowledge masterpieces, from the best experts around the world.

Dr Ney Alliey

University of Chicago

Many of these talks are of direct relevance to final year undergraduate and Masters level courses I teach on.

Dr Nigel Ternan

University of Ulster

As a health services and epidemiology researcher these provide a good way of keeping up with developments in basic and applied sciences.

Dr Nicholas Glozier

University of Sydney

I teach basic and clinical pharmacology to the students of pharmacy and pharmacotherapy to the PharmD students. These talks are a useful resources and helpful aids for the teaching process.

Prof Naseer Al-Rawi

Jordan University of Science and Technology

I teach in the undergraduate MD program. This is a great resource regarding mechanisms of disease basic science pathology pharmacology etc. The slide presentation with the audio are a great reinforcer of information which can be listened to at your leis

Dr Anne Niec

McMaster University

Yours is a precious work.

Prof Giovanni Nigro

University of Roma - La Sapienza

Great resource for academic teachers.

Dr Nikolaus Trede

University of Utah

I would be very happy to continue the full access to Biomedical & Life Sciences Collection. It is a great collection. Thanks.

Dr Nathan Karin

Technion

The talks are an excellent means of reviewing information and concepts in biological research.

Dr Norman Hughes

University of Melbourne

This is a very useful series!

Dr Nicholas Spitzer

University of California - San Diego

*Excellent summary of current findings and future directions of research
in the field of Alzheimer's Disease.*

Mr Nicholas VANBRUNT

Johnson & Johnson

The talks are fabulous.

Dr Mette Nyegaard

Aarhus University

*A brilliant resource that brings additional depth and breadth to subjects
covered in the classroom.*

Dr Kehinde Ross

Liverpool John Moores University

An excellent resource of outstanding quality.

Prof Rahmat Omar

University of Malaya

Great series of talks!

Prof Frederick Ofosu

McMaster University

Thank you for the great source. I had always considered lectures from the key scientists in the field as the best and quickest way to get understanding of the topic. And a huge wave of inspiration of course!

Dr Olena Kucheryavenko

University of Southern Denmark

I think this is really great source of information for me and also for my students.

Dr Olga Tichá

Masaryk University

The task is very useful. I still remember the days spent in the library dealing with the current contents every month trying to be updated with the literature.

Dr Oliviero Riggio

University of Roma - La Sapienza

I have gone through some of these talks and I am sure that students and teachers will find them exceedingly useful.

Dr Olusoji Olusi

Kuwait University

This is an extraordinary resource. Very useful both for students and professors. It provides a great learning experience to be taught about different subjects by leading figures.

Dr Joaquin Ortega

McMaster University

Excellent reference....Thanks a lot.

Dr Naser AL-Otaibi

Kuwait University

I find this is a very useful resources for both my research and teaching. I will refer my undergraduate and postgraduate students to use the resources.

Dr Wai-Sum O

University of Hong Kong

This is a great source for researchers to catch up with background knowledge specially the ones who cannot travel a lot.

Prof Hilmi Ozcelik

University of Toronto

These talks provide students with up to date clinical information on a range of topics related to those studying on the Biomedical Science and Biochemistry degree programmes.

Dr Patricia Burke

Liverpool John Moores University

Very useful and easy to use.

Prof Peter Barnes

Imperial College London

This is an excellent, comprehensive and accessible resource.

Prof Peter Roberts

University of Bristol

Useful resource for teaching.

Dr Peter Karayiannis

Imperial College London

Excellent resource...Very clear and succinct.

Prof Pamela Enderby

University of Sheffield

Extremely useful talks which I would like to use as a resource for the modules I teach. It would be helpful to be able to use them as reference material for students.

Dr Prue Griffiths

University of Reading

A valuable resource and very straightforward to utilise

Dr Pamela Kearns

University of Birmingham

Excellent resource for students.

Dr Pam Scott

University of Glasgow

An invaluable resource for everyone interested in biological sciences regardless of their vocation. I viewed the talks on Apoptosis and transcription. An intellectually stimulating and thoroughly enjoyable experience. Please keep me updated on the colle

Prof Mohan Pai

McMaster University

This is a great idea for the modern industry scientist to be able to learn and access information whilst on the move. I look forward to exploring the material available in depth.

I consider a great opportunity the possibility of having a continued access to the Biomedical and Life sciences Collection! It makes my work easier.

Prof Paolo Brunetti

University of Perugia

Great combination of basic science and clinical topics which directly impact the care provided to patients.

Prof Paul Boiteau

University of Calgary

This is a good resource that I wish to have available and use... Thanks for making this available to me.

Dr Paul Schneider

Temple University

These are very useful to me - I look forward to using them in an ongoing way.

Prof Paul Garfinkel

University of Toronto

This is an impressive collection of lectures from well-known scientific figures; having these available at any time, making it possible to virtually attend these lectures at your convenience, is a huge advantage in these times of very busy schedules and c

Dr Paulo Fontoura

Roche

This is an amazing way to get in touch with great minds.

Prof Paulo Brandao

Universidade de Sao Paulo

I really think that the site provides an interesting and effective teaching resource.

Dr Pedro Neto

McGill University

Thank you for the generosity of the speakers for sharing their expert knowledge.

Dr Penelope Lowe

University of Sydney

Thank you - this resource looks amazing.

Dr Penny Keene

University of the Witwatersrand

*These are wonderful tools for learning for both myself and my students.
Please allow me continued access.*

Prof Susan Percival

University of Florida

My group will find this an invaluable service.

Dr Peter Metrakos

McGill University

Students greatly benefit from access to a wide range of biomedical literature and I and they are grateful for access to this resource collection.

Dr Peter Ward

Hull York Medical School

A very good service.

Prof Peter Warner

Wayne State University

Please allow me continued access to this terrific resource!

Dr Peter Grandjean

Baylor University

The talks are really very well prepared. They are illustrative, very comprehensive and provide the viewer with great depth on the subject. Much better than learning from study books.

Dr Stefan Gazdzinski

Jagiellonian University

A great idea to take advantage of online teaching. The site is well organized and the talks are ideal to update your research field.

Prof Stefano Brancorsini

University of Perugia

This collection is definitively a great help for teaching and an authoritative yet easy to access source of information for students, PhD students and post-docs.

Prof Stefano Piccolo

University of Padua

Looks a very useful resource.

Dr Stephen Hedger

Flinders University

These are very helpful complements to the coursework for many students in our laboratory group, as well as post doctoral trainees.

Prof Steven Clinton

Ohio State University

I have had a look at some of the talks, particularly those by Bob Weinberg and Gabriel Nunez. I found the talks very informative and well suited for undergraduate as well as PhD studies.

Prof Andreas Strasser

University of Melbourne

The talks provide an in-depth backup to lecture material and textbooks.

Dr Shiela Unkles

University of St Andrews

This series of talks brings medicine and the life sciences vividly alive and this tomb of information is refreshingly accessible. Please continue to provide access to it.

Dr Subhashini Jayanath

University of Malaya

I will find it extremely useful to keep up with the latest research findings in the biological sciences.

Prof Stephen Subtelny

Rice University

Excellent talks! Very clear and easy to follow. Best for students and also for professors.

Prof Suhayla Mukaddam-Daher

University of Montreal

I think these talks are a great resource and I would recommend it to my students.

Prof Sukumar Vijayaraghavan

University of Colorado - Denver

The lectures I sampled were excellent. These would be very useful as part of the courses that I teach.

Dr Kyle Summers

East Carolina University

As I am involved with both postgraduate and undergraduate medical student teaching, this will be an excellent resource for both myself and all my students.

Dr Monalisa Sur

McMaster University

Excellent detail and graphics. I have listened to one today which is excellent and recommended the site.

Dr Susan Selby

University of Adelaide

If we are really going to get med students involved in research. This online seminar series would be an excellent tool for introducing them to some of the important research topics.

Prof Susan Hamilton

Baylor College of Medicine

A fantastic series- thank you...I have accessed the Collection and find the collection really interesting.

Prof Susan Lim

Queen Mary University of London

I visited this web site and saw the collection of seminars. I am impressed with the collections.

Dr Sushil Jha

Jawaharlal Nehru University

These talks are excellent... They would make a great graduate seminar exploring in depth a particular topic, similar to reading a book of review articles for a seminar course and discussion on a weekly basis with a faculty member also expert in the area.

Prof Maria Trojanowska

Boston University

This is an excellent resource. The talks in the several area of my interest were abundant and comprehensive.

Prof Thomas Sutter

University of Memphis

Excellent resource that we should keep.

Dr Tim Takaro

Simon Fraser University

Very updated info.

Prof Tit-Yee Wong

University of Memphis

The Henry Stewart talks provide real help, as well as enjoyment, to anyone engaged in biomedical research.

Prof Ursula Mittwoch

University College London

What a truly wonderful resource! I have spent the entire morning listening to updated information on obesity and am truly impressed by the collection.

Dr Unab Khan

Yeshiva University

It's a very useful tool for advanced medical students, which perfectly complements my lectures and courses.

Prof Ulf Gobel

Charite Universitätsmedizin Berlin

Thanks! I have just spent a while browsing this collection, which looks excellent and of huge potential benefit both for my teaching of postgraduate courses and for my research.

Dr Una Fitzgerald

National University of Ireland - Galway

I have enjoyed the talk on membrane estrogen receptors and will watch others. May be I will recommend some to our students. Thank you for making these presentations publicly available...I will recommend some to the students...

Dr Urs Ruegg

University of Geneva

ONLINE LECTURES
BY LEADING WORLD EXPERTS

Fab collection of talks. Really good on-line resource taht can be accessed easily even off campus.

Dr Ute Scholl

University of Exeter

I think ist a wonderful and very helpful tool for valuable research informations! Thank you ahead for your kind service.

Prof Uwe Juergens

University of Bonn

I am thoroughly appreciating these lectures for my teaching modules, and for my own knowledge base - keep up the good work.

Dr Virginia Calder

University College London

A valuable resource for researchers and teachers.

Dr Valentine Charlton-Menys

University of Manchester

A good piece of information!!!

Dr Valerio Consalvi

University of Roma - La Sapienza

ONLINE LECTURES
BY LEADING WORLD EXPERTS

The microarray talks, Alzheimers, and protein folding talks are particularly useful!!! Please make the available.

Prof Richard Van Duyne

Northwestern University

The presented material is high quality, actual and I would like to have access continually.

Dr Dzilda Velickiene

Lithuanian University of Health Sciences

Talks are well made, easy to follow, and cover relevant topics. I am very interested in full continued access to the talks, and I feel I personally will find them informative, but I will also recommend them to students in my lab.

Dr Verda Davis

University of Kentucky

Making available the state of art conveyed by world leading scientists to a wide public of colleagues and students is a new dimension in spreading the knowledge. This will make stronger many colleagues who due to different reasons (such as inadequate mat

Prof Veronika Kralj-Iglic

University of Ljubljana

Thank you for nice opportunity.

Dr Victor Ginzburg

Ben Gurion University

Well done!

Dr Vikram Duvvi

Yeshiva University

*It is a good complimentary addition to the existing literature available at
KI.*

Dr Viljar Jaks

Karolinska Institute

*These are nice – some of it quite heavy weight but still very good to
receive – thank you for that.*

Dr Virendra Singh

University of the West Indies

*I found some very interesting talks in the field of Physiology. I would
appreciate if our library could continue the access to this fine
educational tool.*

The Henry Stewart Biomedical and Life Sciences talks are an excellent resource for pathology students and trainees at all levels...I submitted a strong letter of support for HStalks to the Harvard library...

Dr Vinay Mahajan

Harvard University

I am working on my new graduate course: "Membrane Physiology" and I am thinking whether or not to use some of the slides as supplementary material for students. Thank you for making available this valuable information.

Prof Vitaly Vodyanoy

Auburn University

These are fantastic resources to gain the insight of advancement in the areas of interest.

Dr Venkateswara Chintapalli

University of Glasgow

This is a great collection of excellent talks.

Dr Vladimir Uversky

University of South Florida

This is a very valuable Educational and intellectual website. Thank you for such rich resources.

Prof Waleed Hamza

United Arab Emirates University

This is an excellent collection of high quality talks. I certainly enjoyed listening to the ones I sampled. You can really cover a lot of ground. The range of topics is broad, and many of the leading investigators give the presentations. This resource woul

Prof William Wisden

Imperial College London

Nice resource. Thanks.

Dr Esteban Walker

Case Western Reserve University

These talks provide excellent background for the graduate class I teach in. Wow! Well done!

Prof Judy Wall

University of Missouri - Columbia

Have used several talks in the past; will continue to do so.

Dr Nagle

University of Arkansas for Medical Sciences

These talks are valuable resource for graduate education and research.

Prof Bi-Cheng Wang

University of Georgia

I found the collections are great and extremely useful.

Dr Yun-Xing Wang

National Cancer Institute at Frederick, Scientific Library

Great resource for student instruction, thanks.

Prof Eldon Askew

University of Utah

These are well done and professional and will be useful for education purposes.

Dr Wayne Meikle

University of Utah

Most interesting series.

Dr Wayne Gradman

Cedars Sinai Medical Center

One most useful learning resource for scientist and students in front of research.

Dr Weiping Gai

Flinders University

A very good web seminar.

Dr Xiao-Qing Wei

Cardiff University

This looks great, our University needs full access.

Dr Randy Westrick

University of Michigan

I have listened several talks from your collection. The seminars are really outstanding and informative. I enjoyed them. Thanks.

Dr Wen Tao

Indiana University

Outstanding resource! Please continue our institutional access.

Dr Willem de Villiers

University of Kentucky

Wonderful essays on the importance of understanding evolutionary biology for modern medicine

Dr William Jungers

Stony Brook University

Very informative lecture series.

Prof Andrew Winokur

University of Connecticut

Very useful collection.

Prof Woei-Jer Chuang

National Cheng Kung University

Thank you for the offer and I would like to have continued access... I would appreciate continued information... It will be a great resource for my fourth year students.

Dr J. Krulic

University of Georgia

I checked out some of the lectures in the Biomedical and Life Sciences Collection, and I think this would be a valuable resource to faculty.

Prof Wasim Maziak

University of Memphis

These talks are valuable to keep me in touch with science after my retirement.

Dr Wolfgang Michalke

University of Freiburg

Excellent. Thank you very much for this information.

Dr Wojciech Szczeklik

Jagiellonian University

These knowledge is of great value for my research project.

Dr Wouter Oosterlinck

Katholieke Universiteit Leuven

These lectures are of great value to my students because they introduce them to leading researchers and because they highlight aspects we have no time to discuss in detail in my class.

Prof Jacek Wower

Auburn University

Very helpful facility.

Prof Wilhelm Schwaeble

ONLINE LECTURES
BY LEADING WORLD EXPERTS

The online seminar - style talks are interesting and update both for the students and for my colleagues.

Dr Yechiel Sweed

Technion

Excellent presentation - very clear and comprehensive.

Prof Yunus Luqmani

Kuwait University

This collection does provide very convenient and useful tool for research and education. The talks indeed would save the time for keeping updated on the novel information in biomedicine and the life sciences.

Prof Ying-Ming Liou

National Chung Hsing University

...Indeed this is a valuable resource.

Dr Aviva Yochman

Hebrew University of Jerusalem

I've recommended the talks to the all the members of the Cancer and Inflammation program here in Frederick and I have recommended that our library promote the talks to the summer interns that are beginning work in the next few weeks.

Dr Howard Young

National Cancer Institute at Frederick, Scientific Library

Excellent resource for students and tutors of Genetics and developmental biology.

Dr Abdelmoneim Younis

Mercer University

Very helpful and wide range of subjects. Very important.

Dr Yolaine St. Louis

Yeshiva University

Great teaching tool.

Prof Li-Yuan Yu-Lee

Baylor College of Medicine

A very very useful source indeed!!

Prof Yves Moens

University of Veterinary Medicine Vienna

This is great.

Prof Yongmei Wang

University of Memphis

Great site and wonderful idea. Lovely efforts.

Dr Zaheer Ul-Haq

Innsbruck University

This is an amazing Resource for everyone interested in Science. I appreciate your help and I'm very happy that we have access to this excellent data base!

Dr Juan Zambrano

Pontificia Universidad Javeriana

Very easy to navigate through and most of the talks I followed were very clear and insightful. Certainly convenient for scientists to learn of the latest developments. I would strongly recommend UCB to subscribe to this series.

Dr Zara Sands

UCB Pharma

It is a very good tool for updating our knowledge in specific fields. Thank you very much.

Dr Zeinab Abdullah

University of Bonn

Remarkable material!

Dr Ziad Taib

AstraZeneca

I have used several movies from the HSTalks collection in my Epigenetics course. They were all so interesting and well presented and as such invaluable to my teaching.

Dr Zeev Lev

Technion

This talks gives me inspiration. I prefer listening than reading, so that's excellent. There are plenty of basic science talks showing the fast evolution of molecular explanations.

Dr Andrzej Zmaczynski

Jagiellonian University

Great talks for a broad range of audience. For my first year medical student some of the talks are on a rather high level, but most lectures are excellent to boost interest in deepening the fundamentals of Life Sciences that are much needed in medicine of

Prof Matjaz Zorko

University of Ljubljana

I found this resource very helpful for me and my research group, and I do think it would be useful for the wider student body and other researchers.

Dr Zofia Miedzybrodzka

University of Aberdeen

Excellent collection.

Prof Zvonimir Rudolf

University of Ljubljana

This is a wonderful collection of talks. You did a great job.

Prof Zvi Vogel

Weizmann Institute of Science

*This resource is an outstanding collection and contribution to our
biomedical and life research. Well done!*

Dr Zhilong Wang

North Carolina State University - Raleigh
